Full Score in C

Ephemerata

For Clarinet, Piano, Violin and Violoncello

Ephemera

For Clarinet in B-flat, Piano, Violin and Violoncello

Ephemeria

For Clarinet in B-flat, Piano, Violin and Violoncello

Duration 7'30''

The work Ephemeria is a single moment in time, exposing all of the depth and shadow found in a glimpse. The work engages with the concepts of eternity and the dissolution of time found in Messiaen's *Quatuor pour la fin du temps* by breaking down the final moment of the piece and reimagining all the movement and detail held within it.

Performance Notes

The tone of the piece should be as calm as possible. Treat all dynamics as different degrees of quiet. Articulations should not be overly aggressive and should be interpreted as how pronounced the attack of a note should be.

Intonation

The piece uses the following symbols to indicate pitch. It is important to treat these inflections more as colourings of the note as they are approximations to indicate contour of the line.

Clarinet

Harmonics

Diamond note head indicates sounding pitch, whereas standard note head indicates fingering.

Flutter Tongue

Indicated by tremolo markings on the stem.

Slap Tongue

Indicated by a '+' above the staff, the effect should be a percussive attack to the start of the note. As stated above, the action should not be overly aggressive.

Piano

Preparation

The piece makes use of the strings natural harmonics. The sounding pitch is shown in bracketed note heads and should be achieved by preparing the piano strings with white-tac or another method so that the string is stopped at the indicated position.

Some pitches can be achieved by two different positions on the string, these are both indicated on the diagram.

Strings

Harmonics

Indicated in the score at performed pitches, rather than sounding pitches.

Col Legno + 1/2 hair

Indicates for both the wood and the hair of the bow to be in contact with the string.

The following abbreviations are used throughout the piece

- MSP Molto sul pont
- SP Sul pont
- ORD. Ordinary bowing position
