CORRIGENDUM

Single-Taxon Field Measurements of Bacterial Gene Regulation Controlling DMSP Fate

Vanessa A. Varaljay, Julie Robidart, Christina M. Preston, Scott M. Gifford, Bryndan P. Durham, Andrew S. Burns, John P. Ryan, Roman Marin III, Ronald P. Kiene, Jonathan P. Zehr, Christopher A. Scholin, and Mary Ann Moran

Correction to: ISME Journal (2015) {issue}, {page range}; doi: XXXXXXXXXXXXXXXX

- 1) A wording error in a sentence in the abstract misrepresented a main finding of the research. The sentence should read:
Expression of the **demethylation** pathway was relatively greater during a high-DMSP-producing dinoflagellate bloom, and expression of the **cleavage** pathway was greater in the presence of a mixed diatom and dinoflagellate community.
- 2) The supplementary file published with the paper was missing figure legends. The correct file is now provided.
