Contributing Authors

- Massimo Avoli**, Department of Neurology and Neurosurgery, McGill University, Montreal, Canada
- Roy A. Bakay**, Department of Neurological Surgery, Chicago Institute of Neurosurgery and Neuroresearch, Rush Presbyterian-St. Luke's Medical Center, Chicago, IL
- Scott C. Baraban**, Department of Neurological Surgery, University of California San Francisco, San Francisco, CA
- Tallie Z. Baram**, Departments of Pediatrics and Anatomy and Neurobiology, University of California Irvine, Irvine, CA
- Stefania Bassanini**, National Neurological Institute Carlo Besta, Milan, Italy
- Giorgio Battaglia**, National Neurological Institute Carlo Besta, Milan, Italy
- Christophe Bernard**, INMED-INSERM U29, Marseilles, France
- Edward H. Bertram**, Department of Neurology, University of Virginia, Charlottesville, VA
- Ronald A. Browning**, Department of Physiology, Southern Illinois University School of Medicine, Springfield, IL
- Paul S. Buckmaster**, Department of Comparative Medicine, Stanford University, Stanford, CA
- Daniel L. Burgess**, Department of Neurology, Baylor College of Medicine, Houston, TX
- Thomas Budde**, Institut für Physiologie, Otto-von-Guericke-Universität, Universitätsklinikum, Magdeburg, Germany
- Xiang Cai**, Department of Physiology, University of Maryland, Baltimore, MD
- Esper A. Cavalheiro**, Escola Paulista de Medicina (UNIFESP/EPM), Laboratório de Neurologia Experimental, Universidade Federal de São Paulo, São Paulo, Brazil
- Wei-Ping Chen**, Department of Physiology and Pharmacology, SUNY Health Science Center, Brooklyn, NY
- Suzanne Clark**, Department of Biomedical Science, Colorado State University, Fort Collins, CO
- Miguel A. Cortez**, Department of Neurology, Hospital for Sick Children, Toronto, Ontario, Canada
- Marco de Curtis**, Department of Experimental Neurophysiology, Istituto Nazionale Neurologico Carlo Besta, Milan, Italy
- Antoine Depaulis**, Université Joseph Fourier, Grenoble, France
- Marc A. Dichter**, Department of Neurology, University of Pennsylvania School of Medicine, Philadelphia, PA
- Céline Dinocourt**, Department of Physiology, University of Maryland, Baltimore, MD
- Céliné M. Dubé**, Department of Anatomy and Neurobiology, University of California Irvine, Irvine, CA
- F. Edward Dudek**, Department of Physiology, University of Utah, Salt Lake City, UT
- Jerome Engel, Jr.**, Reed Neurological Research Center, Department of Neurology, UCLA School of Medicine, Los Angeles, CA
- Aristea S. Galanopoulou**, Departments of Neurology and Neuroscience, Albert Einstein College of Medicine, Bronx, NY
- Mary E. Gilbert**, Neurotoxicology Division, US Environmental Protection Agency, Research Triangle Park, NC

- Jeffrey H. Goodman**, Center for Neural Recovery and Rehabilitation Research, Helen Hayes Hospital, West Haverstraw, NY
- Ali Gorji**, Institut für Physiologie, Universität Münster, Münster, Germany
- Heidi Grabenstatter**, Department of Biomedical Science, Colorado State University, Fort Collins, CO
- Kevin D. Graber**, Department of Neurology and Neurological Sciences, Stanford University, Stanford, CA
- Uwe Heinemann**, Institute of Neurophysiology, Charité, Humboldt University, Berlin, Germany
- Gregory L. Holmes**, Dartmouth Medical School, Dartmouth-Hitchcock Medical Center, Lebanon, NH
- John R. Huguenard**, Department of Neurology and Neurological Sciences, Stanford University, Stanford, CA
- John G.R. Jefferys**, Department of Neurophysiology, University of Birmingham Medical School, Birmingham, United Kingdom
- Frances E. Jensen**, Department of Neurology, Children's Hospital, Harvard Medical School, Boston, MA
- Phillip C. Jobe**, Biomedical and Therapeutic Sciences, University of Illinois College of Medicine, Peoria, IL
- Oliver Kann**, Institute of Neurophysiology, Charité, Humboldt University, Berlin, Germany
- Kevin M. Kelly**, Department of Neurology, Allegheny-Singer Research Institute, Allegheny General Hospital, Pittsburgh, PA
- Irina Kharatishvili**, Department of Neurobiology, AI Virtanen Institute for Molecular Science, University of Kuopio, Kuopio, Finland
- Rüdiger Köhling**, University of Rostock, Institute of Physiology, Rostock, Germany
- Hana Kubová**, Institute of Physiology, Academy of Sciences, Videnska, Prague, Czech Republic
- Sanjay S. Kumar**, Department of Comparative Medicine, Stanford University, Stanford, CA
- João P. Leite**, Department of Neurology, Universidade Federal de Sao Paulo, Sao Paulo, Brazil
- Laura Librizzi**, Department of Experimental Neurophysiology, Istituto Nazionale Neurologico Carlo Besta, Milan, Italy
- Dean D. Lin**, Brain Institute, Department of Neurological Surgery, University of Florida, Gainesville, FL
- Wolfgang Löscher**, Department of Pharmacology, Toxicology & Pharmacy, School of Veterinary Medicine, Hannover, Germany
- Joseph J. LoTurco**, Department of Physiology and Neurobiology, University of Connecticut, Storrs, CT
- Heiko J. Luhmann**, Institut für Physiologie und Pathophysiologie, Johannes-Gutenberg-Mainz Universität, Mainz, Germany
- Gilles van Luijtelaar**, Department of Biological Psychology, Radboud University of Nijmegen, Nijmegen, The Netherlands
- Pavel Mareš**, Institute of Physiology, Academy of Sciences, Videnska, Prague, Czech Republic
- Gary W. Mathern**, Department of Neurological Surgery, University of California Los Angeles, Los Angeles, CA
- Andrey M. Mazarati**, University of California Los Angeles, West Los Angeles VA Medical Center, Los Angeles, CA
- Tracy K. McIntosh**, Traumatic Brain Injury Laboratory, Department of Neurosurgery, University of Pennsylvania, Philadelphia, PA
- Dan C. McIntyre**, Department of Psychology, Carleton University, Ottawa, Ontario, Canada
- James O. McNamara**, Department of Neurobiology, Duke University Medical Center, Durham, NC
- Luiz E. Mello**, Department of Physiology, Universidade Federal de Sao Paulo, Sao Paulo, Brazil
- Solomon L. Moshé**, Departments of Neurology, Neuroscience and Pediatrics, Albert Einstein College of Medicine, Montefiore Medical Center, Bronx, NY
- Maria G. Naffah-Mazzacoratti**, Escola Paulista de Medicina (UNIFESP/EPM), Laboratorio de Neurologia Experimental, Universidade Federal de Sao Paulo, Sao Paulo, Brazil
- Astrid Nehlig**, Faculty of Medicine, University of Strasbourg, Strasbourg, France
- Prosper N'Gouemo**, Department of Pharmacology, Georgetown University Medical Center, Washington, DC
- Jari Nissinen**, Department of Neurobiology, AI Virtanen Institute for Molecular Sciences, University of Kuopio, Kuopio, Finland
- Jeffrey L. Noebels**, Developmental Neurogenetics Laboratory, Department of Neurology, Baylor College of Medicine, Houston, TX
- Michael W. Nestor**, Department of Physiology, University of Maryland, Baltimore, MD
- Andre Obenaus**, Department of Radiation Medicine, Radiobiology Program, Loma Linda University, Loma Linda, CA

- Jeffrey Ockuly**, Department of Neurology, University of Wisconsin, Madison, WI
- Hans-Christian Pape**, Institut für Physiologie, Otto-von-Guericke-Universität, Universitätsklinikum, Magdeburg, Germany
- Asla Pitkänen**, Department of Neurobiology, AI Virtanen Institute for Molecular Sciences, University of Kuopio, Kuopio, Finland
- John Pollard**, Department of Neurology, University of Pennsylvania School of Medicine, Philadelphia, PA
- David A. Prince**, Department of Neurology and Neurological Sciences, Stanford University, Stanford, CA
- Dominick P. Purpura**, Dean, Albert Einstein College of Medicine, Bronx, NY
- Raddy L. Ramos**, Department of Physiology and Neurobiology, University of Connecticut, Storrs, CT
- Charles E. Ribak**, Department of Anatomy and Neurobiology, University of California Irvine, Irvine, CA
- Michael A. Rogawski**, Epilepsy Research Section, Porter Neuroscience Research Center, National Institute of Neurological Disorders and Stroke, Bethesda, MD
- Steven N. Roper**, Brain Institute, Neurological Surgery, University of Florida, Gainesville, FL
- Russell M. Sanchez**, Department of Pharmacology, University of Texas Health Science Center, San Antonio, TX
- Raman Sankar**, Departments of Neurology and Pediatrics, Brain Research Institute, University of California Los Angeles, Los Angeles, CA
- Sebastian Schuchmann**, Institute of Neurophysiology, Charité, Humboldt University, Berlin, Germany
- Philip A. Schwartzkroin**, Department of Neurological Surgery, University of California Davis, Davis, CA
- Laszlo Seress**, Central Electron Microscopic Laboratory, Faculty of Medicine, University of Pecs, Pecs, Szegedi, Hungary
- Lee A. Shapiro**, Department of Anatomy and Neurobiology, University of California Irvine, Irvine, CA
- Yukiyoshi Shirasaka**, University of California Los Angeles, West Los Angeles VA Medical Center, Los Angeles, CA
- Margaret N. Shouse**, Department of Neurobiology, University of California Los Angeles, Los Angeles, CA
- Misty Smith-Yockman**, Department of Pharmacology and Toxicology, Anticonvulsant Drug Development Program, University of Utah, Salt Lake City, UT
- O. Carter Snead III**, Department of Neurology, The Hospital for Sick Children, Toronto, Ontario, Canada
- Erwin-Josef Speckmann**, Institut für Physiologie, Universität Münster, Münster, Germany
- Ajay Srivastava**, Department of Pharmacology & Toxicology, Anticonvulsant Drug Development Program, University of Utah, Salt Lake City, UT
- Carl E. Stafstrom**, Department of Neurology, University of Wisconsin, Madison, WI
- Mark Stewart**, Department of Physiology and Pharmacology, SUNY Health Science Center, Brooklyn, NY
- Janet L. Stringer**, Department of Pharmacology, Baylor College of Medicine, Houston, TX
- Lucie Suchomelova**, University of California Los Angeles, West Los Angeles VA Medical Center, Los Angeles, CA
- Thomas P. Sutula**, Departments of Neurology and Anatomy, University of Wisconsin Medical School, Madison, WI
- Kerry W. Thompson**, University of California Los Angeles, West Los Angeles VA Medical Center, Los Angeles, CA
- Scott M. Thompson**, Department of Physiology, University of Maryland, Baltimore, MD
- William J. Triggs**, Department of Neurology, College of Medicine, University of Florida, Gainesville, FL
- Yuto Ueda**, Department of Psychiatry, Miyazaki Medical College, Miyazaki, Japan
- Laura Uva**, Department of Experimental Neurophysiology, Istituto Nazionale Neurologico Carlo Besta, Milan, Italy
- Libor Velíšek**, Departments of Neurology and Neuroscience, Albert Einstein College of Medicine, Bronx, NY
- Jana Velíšková**, Departments of Neurology and Neuroscience, Albert Einstein College of Medicine, Bronx, NY
- Matthew C. Walker**, Institute of Neurology, University College London, London, UK
- Claude Wasterlain**, Brain Research Institute, University of California Los Angeles, Los Angeles, CA
- H. Jürgen Wenzel**, Department of Neurological Surgery, University of California Davis, Davis, CA
- H. Steve White**, Department of Pharmacology & Toxicology, Anticonvulsant Drug Development Program, University of Utah, Salt Lake City, UT

Karen S. Wilcox, Department of Pharmacology & Toxicology, Anticonvulsant Drug Development Program, University of Utah, Salt Lake City, UT

Philip A. Williams, Department of Biomedical Science, Colorado State University, Fort Collins, CO

L. James Willmore, Department of Neurology, Saint Louis University School of Medicine, St. Louis, MO

Robert K.S. Wong, Department of Physiology and Pharmacology, SUNY Health Science Center, Brooklyn, NY

Qian Zhao, Department of Medicine, Dartmouth Medical School, Dartmouth-Hitchcock Medical Center, Lebanon, NH
