Department of Microbiology and Environmental Toxicology, University of California Santa Cruz, Santa Cruz, California, USA a; Department of Chemistry and Biochemistry, University of California Santa Cruz, Santa Cruz, California, USA b

Volume 58, no. 2, p. 1118–1126, 2014. Page 1119, right column, lines 17 and 18: the NF-κB binding site should be five repeats of 5′-TGGGACTTTCCGC-3′.

Page 1122, Figure 3: the piericidin structures shown in panel C are missing hydroxyl groups; they should appear instead as shown below.
