Author Correction: Increased lactate dehydrogenase activity is dispensable in squamous carcinoma cells of origin

A. Flores^{1,2,7}, S. Sandoval-Gonzalez¹, R. Takahashi³, A. Krall⁴, L. Sathe¹, L. Wei⁵, C. Radu⁵, J.H. Joly^{6,7}, N.A. Graham^{6,7,8}, H.R. Christofk^{4,5,9,10} & W.E. Lowry^{1,2,3,9,10}

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-018-07857-9>, published online 09 January 2019

The original version of this Article contained an error in the spelling of the authors J. H. Joly and N. A. Graham, which were incorrectly given as J. Jolly and N. Graham.

Additionally, the affiliation of both authors with 'Mork Family Department of Chemical Engineering and Materials Science, University of Southern California, Los Angeles, CA 90089' and N. A. Graham with 'Norris Comprehensive Cancer Center, University of Southern California, Los Angeles, CA 90089' was inadvertently omitted.

This has now been corrected in both the PDF and HTML versions of the Article.
