Christopher Adams was Campus Planner for UC Merced from 1998–2003 and served on the staff which advised the UC Regents on selection of the site. Prior to that time he was director of long-range planning for the UC systemwide office.

Renee Chow is a Principal of Studio URBIS in Berkeley and Associate Professor of Architecture and Urban Design at University of California, Berkeley, where she is also the Graduate Chair of the M.Arch. Program. Her design work, research, and teaching focus on the production of the everyday environment — premised on seeing built and open spaces, public and private places as a continuum that holds our communities and cultures. She is author of *Suburban Space: The Fabric of Dwelling* (2002).

Michael Dobbins teaches architecture and city and regional planning at Georgia Tech's College of Architecture and is affiliated with the College's Center for Quality Growth and Regional Development. He was the Commissioner of Planning and Development for the City of Atlanta from 1996 to 2002, and he continues to advise the City on public policy issues, particularly transportation, land use, and urban design. An architect, planner and urban designer, he has also directed planning agencies in New York, Birmingham, and the University of California, Berkeley.

Ellen Dunham-Jones, a member of the Places Editorial Advisory Board, is Director of the Architecture Program at the Georgia Institute of Technology, and was recently appointed to the board of the Congress for New Urbanism. She is a frequent lecturer, nationally and internationally, on topics of new urbanism, smart growth, and various interconnections between contemporary development patterns and critical architectural theory and design.

Michael Freedman is the Founding Partner of Freedman, Tung & Bottomley, an urban design and town-planning firm headquartered in San Francisco. He and his partners have become known for providing communities with creative and effective solutions to revitalize their downtown districts and regional retail centers, to prepare master plans and building standards for transit-oriented development, to restructure failing or stagnated commercial corridors and workplace districts, to master-plan civic centers and transit centers that function as the “hearts” of communities, and to create special streets, boulevards, and public places that stimulate new investment and vitality.

John L. Kriken, FAIA, AICP, is a Consulting Partner at Skidmore, Owings & Merrill LLP, San Francisco. His work, during many years of distinguished practice, has ranged from regional policy and the structure of cities, to the detailed design of neighborhoods, streets and public spaces.

Paul Mitchell Hess is an Assistant Professor of Geography and Planning at the University of Toronto, where he teaches urban planning and urban design. His research interests include pedestrian design, urban and suburban form, and planning history.

Christopher B. Leinberger is a Visiting Fellow at the Metropolitan Policy Program of The Brookings Institution, the Director of the University of Michigan Graduate Program in Real Estate, and a Founding Partner in Arcadia Land Company, a progressive development firm with projects in Pennsylvania, Florida, Missouri and New Mexico. He and his wife Lisa live in the DuPont Circle section of Washington, D.C.

Lars Lerup is William Ward Watkin Professor of Architecture at Rice University's School of Architecture in Houston, Texas. This text is drawn from a just-completed book manuscript called *Smarrtaeres*.

Brendon Levitt is an Associate at Loisos+Ubbelohde, an architecture and sustainable-design consulting firm in Oakland, California. He was a Project Assistant at Maki and Associates in Tokyo for four years.

Darren Petrucci is the Director of the School of Architecture and Landscape Architecture at the College of Design, Arizona State University. In 2004 he founded SCAPE (Sustainable Components Architectural Products and Environments) the applied research lab at the College of Design. He is also the founding principal of Architecture-Infrastructure-Research, Inc., an architectural practice based in Arizona, where his recent work includes premanufactured building assemblies for both civic infrastructure and private dwellings.

Cervin Robinson is Photo Editor of *Places*.

Susan Rogers is a Visiting Assistant Professor in the Gerald D. Hines College of Architecture at the University of Houston. She is also the Interim Director of the Community Design Resource Center.

Roger Sherman is the Principal of Roger Sherman Architecture and Urban Design (RSAUD) in Santa Monica, CA, and an Adjunct Associate Professor at the UCLA Department of Architecture and Urban Design. Formerly, he founded and was Director of the FreshURBS Program at SCI-Arc in Los Angeles. He is editor of *RE.American Dream: Six Housing Prototypes for Los Angeles* (Princeton Architectural Press), and author of *Under the Influence: Negotiating the Complex Logic of Urban Property* (forthcoming from the Univ. of Minnesota Press).

Greg Tung and Ellen Greenberg are Principals at the San Francisco-based urban design firm of Freedman, Tung & Bottomley. In addition to his design work for the firm, Tung has taught urban design at U.C. Berkeley and has participated as a resource person for the Mayor's Institute for City Design and the GSA and NEA awards programs. Greenberg is an authority on emerging practice areas, including zoning reform, street and circulation-network design, and transit-oriented development.

June Williamson is a practicing architect and urban designer in New York City and a recent graduate of the Urban Design Program at the City College of New York. She and Ellen Dunham-Jones are working on a case-study book about retrofitting suburbs.
