**Tabulations from a Late October 2025 Berkeley IGS Poll
of the Demographic Characteristics of
California Registered Voters Overall and by Party**

by the
Berkeley IGS Poll
Institute of Governmental Studies
University of California, Berkeley

October 20-27, 2025

Introduction

The statistical tabulations in this volume are based on a *Berkeley IGS Poll* completed by the Institute of Governmental Studies (IGS) at the University of California, Berkeley. The poll was administered online in English and Spanish October 20-27, 2025 among a stratified random sample of 8,141 registered voters across California. Funding for the poll was provided in part by the *Los Angeles Times*.

The poll was conducted by distributing email and text message invitations to stratified random samples of the state's registered voters. Each email and text message invited voters to participate in a non-partisan survey conducted by the Institute and provided a link to the IGS website where the survey questionnaire was housed. Reminder emails and texts were distributed to non-responding voters and an opt out link was provided for voters not wishing to receive further invitations.

Samples of California registered voters were derived from information contained on the state's official voter registration rolls and was provided to IGS by Political Data, Inc. (PDI), a leading supplier of registered voter lists and were derived from information contained on the official voter registration rolls, which is a public document. Voters who said they had already voted were included into the likely voter sample only after being verified that their ballot had been received by their local county registrar by the close of data collection.

To protect the anonymity of respondents, voters' email addresses, cell phone numbers and all other personally identifiable information derived from their voter record were purged from the data file and replaced with a unique and anonymous identification number during data processing.

After the completion of data collection, post-stratification weights were applied to the survey data file to align the sample of registered voters surveyed to population characteristics of registered voters statewide and within major regions of the state on a wide range of variables. More information about the survey methods used by the *Berkeley IGS Poll* can be found on the poll's website at <https://www.igs.berkeley.edu/research/berkeley-igs-poll>.

The sampling error associated with the survey results is difficult to calculate precisely because of sample stratification and post-stratification weighting. Nevertheless, it is likely that findings from the overall likely voter sample have a sampling error of about +/- 1.5 percentage points at the 95% confidence level. A more complete description of the survey methods used by the poll can be found at https://igs.berkeley.edu/sites/default/files/survey_methods_of_the_berkeley_igs_poll_2025.pdf.

About the Institute of Governmental Studies

The Institute of Governmental Studies (IGS) is an interdisciplinary organized research unit that pursues a vigorous program of research, education, publication and public service. A component of the University of California system's flagship Berkeley campus, IGS is the oldest organized research unit in the UC system and the oldest public policy research center in the state. IGS's co-directors are Professor Eric Schickler and Professor G. Cristina Mora.

IGS conducts periodic surveys of public opinion in California on matters of politics and public policy through its *Berkeley IGS Poll*. The poll seeks to provide a broad measure of contemporary public opinion, and to generate data for subsequent scholarly analysis. Veteran pollster Mark DiCamillo serves as director of the *Berkeley IGS Poll*. For a complete listing of stories issued by the *Berkeley IGS Poll* go to <https://www.igs.berkeley.edu/research/berkeley-igs-poll>.

Late October 2025 Berkeley IGS Poll — Statewide Registered Voters

Table 1: Age (Statewide Registered Voters)

	Total registered voters	Party Registration		
	Total	Democrat	Republican	NPP/other
unweighted n	8141.00	4243.00	1924.00	1974.00
weighted n	8141.00	3696.00	2053.00	2392.00
18-24	0.12	0.13	0.08	0.15
25-29	0.06	0.06	0.04	0.09
30-39	0.18	0.18	0.14	0.22
