ENVIRONMENTAL RESOURCES

Terry Link <20676tpl@msu.bitnet>

Publishers and readers are invited to send material for this column to Terry Link, DataPoints Editor, Electric Green Library Journal, Main Library, Michigan State University, East Lansing, MI 48824-1048 USA. TEL: 517-355-1751 FAX: 5517-353- 8706.

This column presents, in brief form, news reports, announcements, calls for papers, and lists of organizations, conferences, and publications of interest to Green Library Journal readers. Some publications cited in this column may be reviewed in later issues, but appear here to provide timely notice of new titles. Though most resources cited here are new, some are not, but are presented for the benefit of readers who may not already be familiar with them. Every effort is made to provide descriptive annotations when possible. Beginning with this issue, DataPoints is compiled by Terry Link, reference librarian and journalism bibliographer in the Main Library, Michigan State University, East Lansing, MI.

Publications and Resources

Monographs

Barzetti, V. and Y. Rovinski (eds.). *Toward a Greener Central America: Integrating Conservation and Development*. West Hartford, CT: Kumarian Press, 1992. ISBN: 1-56549-006-1.

Bowers, C. A. *Education, Cultural Myths, and the Ecological Crisis: Toward Deep Changes*. Albany: State University of New York Press, 1993. ISBN: 0-7914-1255-5.

Examines the educational process and how it perpetuates cultural myths that contribute to the ecological crisis. Follows the thinking of Aldo Leopold, Wendell Berry, and Gregory Bateson.

Dinham, B. *The Pesticide Hazard: A Global Health and Environmental Audit*. London/New York: Zed Books, 1993. ISBN: 1-85649-202-8.

Energywise Options for State and Local Governments. 2nd. ed. Washington: Center for Policy Alternatives 1875 Connecticut Ave. NW, Suite 710, Washington, DC 20009.

Describes the best state and local programs on energy efficiency, transportation, waste reduction, and renewable energy. Includes contact person and phone number for each program.

Environmental Equity. Innovate Management Strategies Series. Washington: United States Environmental Protection Agency, Office of Administration and Resources Management, Information Management and Services Division, 1993. EPA report No. EPA 220-B-92-024.

Available from EPA Headquarters Library, Room M2904 PM- 211A, 401 M Street SW, Washington, DC 20460.

European Foundation for the Improvement of Living and Working Conditions. European Workshop: Land Use Management and Environmental Improvement in Cities, Proceedings of a European Workshop, Lisbon May 6-8, 1992. Luxembourg: Office for Official Publications of the European Communities, 1992. ISBN:92-826-4689-0.

Friedmann, John and Haripriya Rangan (eds.). *In Defense of Livelihood: Comparative Studies of Environmental Action*. West Hartford, CT: Kumarian Press, 1993. ISBN: 1-56549-020-7.

Envirogopher.

The EnviroLink Network contains archives of the EnviroLinks Networks, as well as a compilation of many other on- and off-line information sources. The main menu offers choices including "EnviroAction", "EnviroInfo", "EnviroOrgs", "EnviroPolitics" and even "Other Gopher Servers" which will allow you to connect with the ECOGOPHER at the University of Virginia.

There are a number of ways to connect to ENVIROGOPHER.

```
*** type telnet envirolink.hss.cmu.edu"
```

```
*** username: GOPHER
```

```
*** password: ENVIROLINK
```

Most Gopher servers have a directory that lists "Other Gopher Servers". Choose this, then look under "North America" and then "General" under the gopher name: EnviroGopher. Some Gopher servers offer a "keyword search". Simply type "EnviroGopher". This information received via The EnviroLink Network. System Administrator: Josh Knauer. TEL: 412-681-8300 env-link+@andrew.cmu.edu.

A Biologist's Guide to Internet Resources.

This guide contains an overview and lists of free Internet resources such as scientific discussion groups and mailing lists, research newsletters, directories and bibliographies, huge data and software archives, tools for finding and retrieving information of specific interests to biologists, as well as a bibliography of useful books about the Internet and documents published through the Internet. The most current version of the free 30 page guide can be obtained via the Internet in many ways. Here are a few of them:

```
*** In USENET, look in sci.bio or sci.answers
```

```
*** Gopher to sunsite.unc.edu, and choose this sequence of menu items: Sunsite Archives
```

Browse All Sunsite Archives

Academic

Biology

Ecology+Evolution

*** Or, from any Gopher offering other biology gophers by topic, look for the menu "Ecology and Evolution [at UNC or Yale]"

*** FTP to rtfm.mit.edu. Give username "anonymous" and your e-mail address as the password. Use the "cd" command to go to the [pub/usenet/news.answers/biology/](ftp://pub.usenet/news.answers/biology/) directory and use "get guide" to copy the file to your computer. The guide is actually stored as guide.Z, which is a compressed binary file, but if you specify "guide" it will be uncompressed and translated to readable ASCII before it is transferred to your computer. You can also use anonymous FTP to sunsite.unc.edu, where this guide is stored as pub/academic/biology/ecology=evolution/FAQ.

*** If all else fails, send e-mail to mail-server@rtfm.mit.edu with the text "send usenet/news.answers/biology/guide". Because the guide is so long, you will probably receive it in parts.

New References to Electronic Conservation Information

The Guide to Online Resources for the Conservationist helps computer and modem using conservationists and environmentalists join the information age, by telling how to link up to computer connections that are shaping research and activism around the world. The 36-page document provides summary information about commercial online services such as Econet, Compuserve, and America Online, "conferences" and electronic publications on the worldwide Internet, Bitnet, USENET, and Fidonet networks, and computerized databases and online indexes. Phone numbers of smaller computer bulletin boards systems (BBSs) are also included. The information ranges from hiking to farming to toxic water clean-up. The compilers of the lists are Dan Wendling and J. Scott Christianson. Electronic copies can be obtained from the Coin of the Realm BBS (301-585-6697). For those currently without a computer and modem, the printed document is available for \$5 per copy from Dan Wendling, at P.O. Box 13178, Silver Spring, MD 20911. Wendling's Internet address is <danlw@well.sf.ca.us>.
