LANG CHEN

**ONLY CHILD, GOT BEATS** (2019)

FOR LARGE ORCHESTRA

# Instrumentation

3 Flutes (1, 2 & 3 = Piccolos)  
3 Oboes (3 = English Horn)  
3 Clarinets (1 & 2 = B $\flat$ , 3 = E $\flat$  & Bass Clarinet)  
3 Bassoons (3 = Contrabassoon)

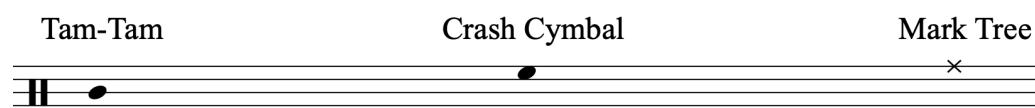

4 Horns in F  
3 Trumpets in C  
2 Tenor Trombones  
1 Bass Trombone  
1 Tuba

Timpani

Percussion (3 Players)

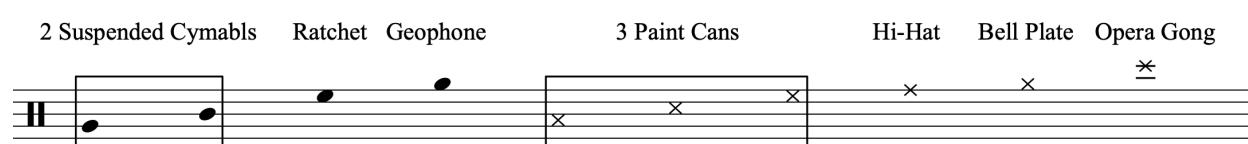

Player 1  
5 Timpani

Player 2  
Almglocken (1 chromatic octave: C4 – C5);  
Crash Cymbal (standard size, hand-held);  
Glockenspiel (sound 2 octaves higher than written);  
Tam-Tam (large);  
Mark Tree

Player 3

2 Suspended Cymbals (different sizes with different pitches, the bigger one should be of the standard size);  
3 Paint Cans (all different, the smallest one should be at least 8" in diameter);  
Bell Plate, Ratchet, Opera Gong, Geophone, Hi-Hat

Player 4

4 Rototoms (from low to high, preferable size: 18", 14", 10" & 6" in diameters);  
Sizzle Cymbal (standard size);  
Washboard (mounted; if not available, can be replaced by a güiro);  
Bass Drum, Snare Drum, Waterphone

Piano

Harp

Strings

## Performance Notes

Woodwinds:

- Occasionally, there are notes with same pitches under slurs. The performers should rearticulate but make it as smooth as possible.
- The performers need not to worry about the intonation for the wide glissandi, however they should follow the contour and achieve a dramatic gesture.
- Key clicks: press the keys and produce the pressing noises
- Airtone: blow directly into the flute and produce no pitch but air noise
- Air fz.: blow directly into the flute and produce only air noise while flutter tonguing

#### Brasses:

- All the instructions are given in the score.

#### Strings:

- Left hand lightly touching the string while doing glissandi produces a result that coming in and out harmonics from white noise.
- Col legno battuto (c.l.b.): strike the string(s) with the back (wooden) part of the bow
- Scratch behind the bridge (s.b.): place the bow behind the bridge and scratch there with a bow
- Bow the tailpiece (b.t.): bow the tailpiece with a bow and produce and airy sound
- Quickly scrape upward with finger nails (f.n.s.): without the bow, directly scrape upward on the string with finger nails (the back of the thumb).

#### General:

-  : gradually change to
- Ord: play ordinarily (it does not affect the use of mutes)
- Non-dyadic/Irrational meter:
  - It has a denominator that is not a power of two (1, 2, 4, 8, 16, 32, etc.), such as  $\frac{1}{6}$  and  $\frac{2}{5}$ . Same as regular time signatures, irrational meter's denominator defines the beat as a division of a whole note, and the numerator gives the number of beats in each bar. For example,  $\frac{4}{3}$  implies there are four beats (half-note triplets) in one measure, and a half note triplet is the beat, because a whole note is divided into three parts. Such type of meters can be seen as sudden tempo changes. For example, if the tempo is  $J = 120$ , changing from  $\frac{4}{4}$  to  $\frac{4}{3}$ , the bpm drops from 120 to 90.
  - In this piece, extra notation, such as incomplete tuplet bracket, is not used in order to avoid further complicating the score. The performers only need to carefully follow the conductor and need not to stress about these meters.

## Program Notes

In the summer of 2019, I did an internship at a recording studio in Beijing. During that time, I learned a lot about pop music production techniques. And I listened to much music by the British producer James Blake. One day, I came across one of his early songs called *Unluck*. I was intrigued immediately. I feel so resonated with this song, and it gives me a strange but good feeling. Maybe it is because I am an only child, and in the song, Blake keeps singing the line "only child/ take good care/ I wouldn't like you playing, falling there." The unpredictable percussion arrangement, especially those snapping sounds, inspired me to write an orchestral piece that features beat making and jagged rhythmic structure. The first piece that came to my mind, which also takes inspiration from electronic dance music, is Thomas Adès's *Asyla*. To show my respect to *Asyla*, I use similar percussion instruments for my piece, although they are used in drastically different ways.

The golden ratio is used as a primary structuring tool, but I do not expect the listeners can hear it. I only use it to help me shape the piece. The pitch materials are a mixture of materials generated based on cycling specific intervals horizontally, chords based on intuition, and traditional third-based chords. Microtones are also frequently used to add more colors or intensities to the music.

## Score in C

Duration: 10'
