The Editor-in-Chief has retracted this article. After publications, concerns were raised about similarities within Figure 4, and between Figures 4 and 6. Multiple images appear to share features in a way that suggests they might have originated from the same sample. The authors have stated the full original data set is no longer available.

Author Lbachir BenMohamed disagrees with this retraction. Author Angèle Nalbandian did not respond to correspondence from the Publisher about this retraction. The Publisher has not been able to obtain a current email address for authors Arif A. Khan, Ruchi Srivastava, Katrina J. Llewellyn, Baichang Tan, Nora Shukr, Yasmin Fazli and Virginia E. Kimonis.
