**Tabulations from a March 2026 Poll of
California Registered Voters Measuring
Early Voter Reactions to the Billionaire Tax
and Voter ID Ballot Propositions**

by the
Berkeley IGS Poll
Institute of Governmental Studies
University of California, Berkeley

March 9-15, 2026

Introduction

The statistical tabulations in this volume are based on a *Berkeley IGS Poll* completed the Institute of Governmental Studies (IGS) at the University of California, Berkeley. The poll was administered online in English and Spanish March 9-15, 2026, among a stratified random sample of 5,109 registered voters in California. Funding for the poll was provided in part by the *Los Angeles Times*.

The poll was conducted by distributing email and text message invitations to stratified random samples of the state's registered voters. Each email and text message invited voters to participate in a non-partisan survey conducted by the Institute and provided a link to the IGS website where the survey questionnaire was housed. Reminder emails and texts were distributed to non-responding voters and an opt out link was provided for voters not wishing to receive further invitations.

Samples of California registered voters were derived from information contained on the state's official voter registration rolls and was provided to IGS by Political Data, Inc. (PDI), a leading supplier of registered voter lists and were derived from information contained on the official voter registration rolls, which is a public document. To protect the anonymity of respondents, voters' email addresses, cell phone numbers and all other personally identifiable information derived from their voter record were purged from the data file and replaced with a unique and anonymous identification number during data processing. After the completion of data collection, post-stratification weights were applied to the survey data file to align the sample of registered voters surveyed to population characteristics of registered voters statewide and within major regions of the state on a wide range of variables. More information about the survey methods used by the *Berkeley IGS Poll* can be found on the poll's website at <https://www.igs.berkeley.edu/research/berkeley-igs-poll>.

The sampling error associated with the survey results is difficult to calculate precisely because of sample stratification and post-stratification weighting. Nevertheless, it is likely that findings from the overall likely voter sample have a sampling error of about +/-2.5 percentage points at the 95% confidence level. A more complete description of the survey methods used by the poll can be found at https://igs.berkeley.edu/sites/default/files/survey_methods_of_the_berkeley_igs_poll_2026_revised.pdf.

Regional definitions referenced in this report

The results from the state's geographic regions referenced in this volume are comprised of the following counties:

Los Angeles County (Los Angeles County)

Orange County (Orange County)

San Diego County (San Diego County)

Inland Empire (Riverside, San Bernardino and Imperial counties)

Central Coast (Ventura, Santa Barbara, San Luis Obispo, Monterey, Santa Cruz, and San Benito counties)

Sacramento Valley (Shasta, Tehama, Glenn, Butte, Colusa, Yuba, Placer, Sutter, Yolo, El Dorado, and Sacramento counties)

San Joaquin Valley (San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and Kern counties)

Central Valley (net) (includes all counties in the Sacramento Valley and San Joaquin Valley referenced above)

San Francisco Bay Area (Alameda, Contra Costa, San Francisco, Marin, Napa, Sonoma, Solano, San Mateo, Santa Clara).

North Coast/Sierras (Del Norte, Siskiyou, Modoc, Humboldt, Trinity, Lassen, Mendocino, Plumas, Sierra, Nevada, Lake, Alpine, Amador, Calaveras, Tuolumne, Mono, Mariposa, Inyo counties.)

About the Institute of Governmental Studies

The Institute of Governmental Studies (IGS) is an interdisciplinary organized research unit that pursues a vigorous program of research, education, publication and public service. A component of the University of California system's flagship Berkeley campus, IGS is the oldest organized research unit in the UC system and the oldest public policy research center in the state. IGS's co-directors are Professor Eric Schickler and Professor G. Cristina Mora.

IGS conducts periodic surveys of public opinion in California on matters of politics and public policy through its *Berkeley IGS Poll*. The poll seeks to provide a broad measure of contemporary public opinion, and to generate data for subsequent scholarly analysis. Veteran pollster Mark DiCamillo serves as director of the *Berkeley IGS Poll*. For a complete listing of stories issued by the *Berkeley IGS Poll* go to <https://www.igs.berkeley.edu/research/berkeley-igs-poll>.

Early March 2026 Berkeley IGS Poll — Statewide Registered Voters

Table 1: Q14. Have you seen, read or heard anything about an initiative, referred to as the "Billionaire Tax Act," that is being proposed for California's November 2026 election ballot? (Statewide Registered Voters)

Table 5: Q15. The Billionaire Tax initiative calls for imposing a one-time 5 percent state tax on the total wealth of any California resident whose net worth is greater than 1 billion dollars. Supporters say it will provide much needed tax revenues and help offset the cutbacks being made by the Trump administration to existing state health care and food assistance programs. Opponents say its passage would undercut state tax revenues in the long run and stifle innovation as many of California’s highest paying taxpayers and most successful individuals may choose to leave the state to avoid the tax. If you were voting today on the Billionaire Tax Initiative, would you vote Yes or No? (Statewide Registered Voters)

Table 14: Q17. The California Voter ID Initiative is a proposed constitutional amendment to establish additional voter identification and citizenship verification requirements when voting in California elections. Supporters say this will add another layer of security to the state’s elections to prevent fraud and keep noncitizens from voting, while opponents say it will make it harder for citizens to find and produce the necessary documentation to be able to vote in elections. If you were voting today on the California Voter ID Initiative, would you vote Yes or No? (Statewide Registered Voters)
