The following corrections should be made to the published version of our article. A typographical error occurred in Equations (1) and (2) in the published paper. The rest of the paper is unaffected. The correct equations are

$$F_{quad}\left(J, \omega, J_z, \Omega\right) = \frac{1}{2}\left(-1 + J^2\right) + \frac{J_z^2}{J^2} + \frac{3\left(1 - J^2\right)J_z^2}{2J^2}$$
$$+ \frac{5}{2}\left(1 - J^2\right)\left(1 - J_z^2/J^2\right)\cos\left(2\omega\right) \quad (1)$$

$$F_{oct}\left(J, \omega, J_z, \Omega\right) = \frac{5}{16}\left[\sqrt{1 - J^2} + \frac{3}{4}\left(1 - J^2\right)^{3/2}\right]$$
$$\times \left[\left(1 - \frac{11J_z}{J} - \frac{5J_z^2}{J^2} + \frac{15J_z^3}{J^3}\right)\cos\left(\omega - \Omega\right)\right.$$
$$+ \left.\left(1 + \frac{11J_z}{J} - \frac{5J_z^2}{J^2} - \frac{15J_z^3}{J^3}\right)\cos\left(\omega + \Omega\right)\right]$$
$$- \frac{175}{64}\left(1 - J^2\right)^{3/2}$$
$$\times \left[\left(1 - \frac{J_z}{J} - \frac{J_z^2}{J^2} + \frac{J_z^3}{J^3}\right)\cos\left(3\omega - \Omega\right)\right.$$
$$+ \left.\left(1 + \frac{J_z}{J} - \frac{J_z^2}{J^2} - \frac{J_z^3}{J^3}\right)\cos\left(3\omega + \Omega\right)\right]. \quad (2)$$
