LIST OF FIGURES AND TABLES

Executive summary

Figure 1S. Flow chart of the identification of recommended indicators	10
-----------------------------------------------------------------------	----

Table 1S. Provider indicator list	15
-----------------------------------	----

Table 2S. Area indicator list	18
-------------------------------	----

Body of report

Figure 1. Abbreviated diagram of literature review	31
----------------------------------------------------	----

Figure 2. Example search strings	50
----------------------------------	----

Figure 3. Example search	51
--------------------------	----

Flow Diagram 1. Literature review strategy	54
--------------------------------------------	----

Table 1. Precision Tests	70
--------------------------	----

Table 2. Bias Tests	71
---------------------	----

Table 3. Construct Validity Tests	72
-----------------------------------	----

Table 4. List of HCUP I indicators, and inclusion status in HCUP II.	75
----------------------------------------------------------------------	----

Table 5. List of other indicators, tested but not recommended due to low precision	75
------------------------------------------------------------------------------------	----

Table 6. Provider indicator list	77
----------------------------------	----

Table 7. Area indicator list	79
------------------------------	----

Table 8. Example clinical groupings	93
-------------------------------------	----

Table 9. Summary evidence table for volume indicators	95
-------------------------------------------------------	----

Table 10. Summary evidence table for provider level utilization indicators	101
----------------------------------------------------------------------------	-----

Table 11. Summary evidence table for area-level utilization indicators.	106
-------------------------------------------------------------------------	-----

Table 12. Summary evidence table for area-level ACSC indicators.	111
------------------------------------------------------------------	-----

Table 13. Summary evidence table for mortality indicators	129
-----------------------------------------------------------	-----

Table 14. Thresholds for indicators	147
-------------------------------------	-----

Table 15. Volume distribution by year	147
---------------------------------------	-----

Table 16. Percentage of procedures and volume	149
-----------------------------------------------	-----

Table 17. Year to year persistence of high volume status	150
----------------------------------------------------------	-----

Table 18. Correlations between volume and mortality indicators	151
----------------------------------------------------------------	-----

Table 19. Precision – Provider Indicators	152
-------------------------------------------	-----

Table 20. Precision – Area Indicators	153
---------------------------------------	-----

Table 21. Minimum Bias – Provider Indicators	157
----------------------------------------------	-----

Table 22. Minimum Bias – Area Indicators	158
------------------------------------------	-----

Table 23. Summary of Factor Analysis Results, Provider-level indicators	163
-------------------------------------------------------------------------	-----

Table 24. Summary of Factor Analysis Results, Area-level ACSC indicators	165
--------------------------------------------------------------------------	-----

Table 25. Summary of Factor Analysis Results, Area-level utilization indicators	165
---------------------------------------------------------------------------------	-----

Table 26. Summary of Telephone Contacts August 1999 through March 2001	168
------------------------------------------------------------------------	-----

Table 27. Risk adjustment statistics from the literature	175
----------------------------------------------------------	-----
