A Corrigendum on

[Preventing sleep disruption with bright light therapy during chemotherapy for breast cancer: a phase II randomized controlled trial](#)

by Rissling, M., Liu, L., Youngstedt, S. D., Trofimenko, V., Natarajan, L., Neikrug, A. B., Jeste, N., Parker, B. A., and Ancoli-Israel, S. (2022). *Front. Neurosci.* 16:815872. doi: 10.3389/fnins.2022.815872

In the published article, there was an error in [Table 2](#) as published. The sample size numbers were reversed. The Bright White Light Group sample size numbers in the original table were really the sample sizes for the Dim Red Light group, and visa versa. The correct sample size numbers appear in the corrected table. The corrected [Table 2](#) and its caption appear below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
