Correction: A novel weight suppression score associates with distinct eating disorder and ultra-processed food addiction symptoms compared to the traditional weight suppression measure among adults seeking outpatient nutrition counseling

David A. Wiss^{1*} , Erica M. LaFata² and A. Janet Tomiyama³

Correction to: Wiss et al. *Journal of Eating Disorders* (2024) 12:75

<https://doi.org/10.1186/s40337-024-01029-5>.

Following the publication of the Original Article, the authors reported an error in the title. The word “addiction” after the word “food” was missing from the title:

Incorrect:

A novel weight suppression score associates with distinct eating disorder and ultra-processed food symptoms compared to the traditional weight suppression measure among adults seeking outpatient nutrition counseling.

Correct:

A novel weight suppression score associates with distinct eating disorder and ultra-processed food addiction symptoms compared to the traditional weight suppression measure among adults seeking outpatient nutrition counseling.

The title of this Correction article is correct, and the original article has been corrected.

Published online: 19 June 2024
