**Tabulations from an April 2026 Poll of
California Voter Opinions on Democracy**

by the
Berkeley IGS Poll
Institute of Governmental Studies
University of California, Berkeley

April 9-18, 2026

Introduction

The statistical tabulations in this volume are based on a *Berkeley IGS Poll* completed the Institute of Governmental Studies (IGS) at the University of California, Berkeley. The poll was administered online in English, Spanish, Chinese (both simplified and traditional dialects), Vietnamese and Korean April 9-18, 2026, among a stratified random sample of 5,962 registered voters in California. Funding for the poll was provided by the Evelyn and Walter Haas, Jr. Fund.

The poll was conducted by distributing email and text message invitations to stratified random samples of the state's registered voters. Each email and text message invited voters to participate in a non-partisan survey conducted by the Institute and provided a link to the IGS website where the survey questionnaire was housed. To accommodate non-English language voters, Californians whose voting record indicated that they preferred to have their voting materials sent to them in a Spanish, Chinese, Vietnamese or Korean were sent their email invitations in-language asking them to choose which language they preferred to complete the survey. Reminder emails and texts were distributed to non-responding voters and an opt out link was provided for voters not wishing to receive further invitations.

Samples of California registered voters were derived from information contained on the state's official voter registration rolls and was provided to IGS by Political Data, Inc. (PDI), a leading supplier of registered voter lists and were derived from information contained on the official voter registration rolls, which is a public document. To protect the anonymity of respondents, voters' email addresses, cell phone numbers and all other personally identifiable information derived from their voter record were purged from the data file and replaced with a unique and anonymous identification number during data processing. After the completion of data collection, post-stratification weights were applied to the survey data file to align the sample of registered voters surveyed to population characteristics of registered voters statewide and within major regions of the state on a wide range of variables. More information about the survey methods used by the *Berkeley IGS Poll* can be found on the poll's website at <https://www.igs.berkeley.edu/research/berkeley-igs-poll>.

The sampling error associated with the survey results is difficult to calculate precisely because of sample stratification and post-stratification weighting. Nevertheless, it is likely that findings from the overall registered voter sample have a sampling error of about +/-2 percentage points at the 95% confidence level. A more complete description of the survey methods used by the poll can be found at https://igs.berkeley.edu/sites/default/files/survey_methods_of_the_berkeley_igs_poll_2026_revised.pdf.

Questions asked

On the whole, how satisfied are you with the way democracy works in California?

Which of the following best describes your view of democracy in the United States today?

American democracy is under attack

American democracy is being tested, but it is not under attack

American democracy is in no danger

(IF DEMOCRACY UNDER ATTACK): In your opinion, which of the following persons or factors are responsible for creating the threats to our democracy today?

You may select as many as you feel are applicable. (ORDERING RANDOMIZED)

President Trump

The Republicans in Congress

The Democrats in Congress

U.S. Supreme Court

Voter fraud, with too many ineligible voters casting ballots

Voting machines can be manipulated

Special interests and big money controlling things

Other reasons

Do you support or oppose taking steps to strengthen democracy and voting rights in California?

Not everyone has the time or interest to vote in every election. On a scale of 1 to 10, where “1” means you will definitely not vote and “10” means you definitely will vote, how likely is it that you will vote in this year’s June primary election. Choose any number between 1 and 10 for your answer.

(IF ANSWERED 1-7 OR NOT SURE): Below are some of the reasons why people don’t always vote in elections in California. Please indicate which of these are reasons why you may not vote in this year’s June primary election? Please select as many as apply.

I’m not that interested

My vote doesn’t matter much

I don’t like the candidates for governor

I’m not that well informed about the issues and the candidates

Ballots in California are too long and complicated

Special interests and big money are controlling things

Voting is inconvenient for me and takes too much time

Election results can be manipulated and can’t always be trusted

I’m confused about how to vote

Language problems make it difficult for me to vote

Voting is more difficult for people with disabilities

I’m very busy and may not find the time to vote

None of these

(IF ANSWERED 1-7 OR NOT SURE): Would any of the following things increase your chances of voting in this year's June primary election? Please select as many as apply. (ORDERING RANDOMIZED)

Making voting more convenient for me

Getting assistance from a person or group that I trust to help me better understand the issues and the candidates

Getting more information about how and when to vote

Getting transportation assistance in returning my ballot

If voting materials were available to me in my preferred language

If I had access to an unbiased and trusted source of news about the election

If I felt that ballot measures or candidates were putting my interests at risk

If I felt that ballot measures or candidates would advance my interests

If I felt there were differences between the candidates on the issues I care about

If election results were more trustworthy

If I received language assistance when voting

If voting was made more accessible for people with disabilities

None of these

Reflecting on the current moment in the U.S., do you feel comfortable voting in person?

How confident are you about the overall integrity of the election system here in California?

Do you agree or disagree with the following statement: Election rules should be changed to allow election officials to count ballots faster, even if that means that they could no longer be sure that every single ballot from every eligible voter is counted.

Would you support or oppose the state spending tens of millions of dollars for updated equipment and increased election staffing, if that would result in ballots being counted more quickly?

Would you support or oppose the creation of a state funded "democracy fund" dedicated to support election offices, translate more materials, expand access to voting, and pay for community groups to conduct voter education?

Would you support or oppose state and local governments devoting funding and resources to community organizations and other non-partisan voter outreach groups to provide information and resources to voters alerting them as to when elections are being held and their options for returning their ballot?

Please indicate the extent to which you feel each of the following statements are a problem or not a problem here in California?

- (1) People who are not eligible to vote are voting illegally
- (2) Vote-by-mail ballots being rejected by their local voting registrars because a voter's signature styles on their ballot is not consistent with their signature style on file
- (3) Attempts by the Federal Government and FBI to interfere with the administration of elections in California

To what extent do the following things concern you as being potential threats to having a representative democracy in California?

- (1) Younger voters voting at much lower rates than older voters
- (2) Latino, Black, Asian American, and American Indian voters voting at much lower rates than white voters
- (3) Voter fraud
- (4) Corporations having too much influence on elections
- (5) Efforts to suppress, intimidate and disenfranchise voters

Currently Californians are required to prove their voting eligibility when they register to vote but are not required to do so when they cast their ballot. A statewide ballot measure has been proposed that would require voters to verify their eligibility to vote when voting. This would mean that those choosing to vote in person would need to bring to the polls a government-issued identification card, while those voting by mail or using a drop box would need to list the last 4 digits of a valid voter identification card onto their ballot envelope. Do you support or oppose this new photo identification voting requirement?

Supporters say photo identification laws are necessary to prove the identity of all voters to prevent fraud and prohibit non-citizens from voting. Opponents say voters have already proven their identity when registering to vote and note that many eligible voters may find it difficult to find and produce an unexpired drivers' license, passport or similar document, and thus could be denied the right to vote. When weighing these arguments, are you now more likely to support the voter identification laws, more likely to oppose them, or do they have no effect on your opinion?

California's voter ID ballot measure is sponsored by Republican Assemblymember Carl DeMaio who believes the state needs greater security in our elections to prevent voter fraud. By contrast, Democrats in California have said that voter ID is part of President Trump's larger agenda to keep Latinos, Asian Americans, and Black voters who may not have a current driver's license or passport from voting. How about you? Do you think California's voter ID is the right approach because our elections need more protections against voter fraud, or do you think voter ID is the wrong approach because it will deny some otherwise eligible citizens from voting?

Do you support or oppose the Federal Voting Rights Act, enacted in 1965 to reduce racial discrimination in voting and ensure that all citizens have the right to vote regardless of race?

The Voting Rights Act of 1965 provided voters with strong protections against voting discrimination and unequal access to the ballot among voters of color. Over the past 15 years the United States Supreme Court has issued rulings that have rolled back some of these protections and is currently considering another case that could roll back these protections further. Do you support or oppose the Supreme Court's acting to further limit the provisions of the Voting Rights Act?

Would you support or oppose California expanding its own Voting Rights Act to guarantee that state voters are protected should the U.S. Supreme Court continue to roll back the protections included in the Federal Voting Right Act?

California policy makers are debating different proposals related to voting regulations and protections. For each of the following statements, please indicate whether you support or oppose them. (ORDERING RANDOMIZED)

- (1) When considering changes to voting laws, discrimination against voters because of their race, ethnicity or religion should be prohibited
- (2) Voters living in communities where limited English-speakers meet a minimum threshold should be allowed to receive their voting materials in their preferred language
- (3) Californians should be given the tools to challenge in state court any law that has the effect of reducing or suppressing voter turnout in elections
- (4) The Federal government and FBI should not be given access to or attempt to purge voters from California's voter registration rolls
- (5) Reducing the number of local polling places in heavily ethnic communities is a form of voter suppression and should not be allowed
- (6) When redrawing the maps of election districts, combining voters in communities with large numbers of ethnic voters with voters from neighboring districts should be avoided because it weakens the collective voices of the ethnic community
- (7) Local governments with a past record of racial discrimination should be required to prove that any changes they propose making to voting laws do not discriminate on the basis of race before they go into effect
- (8) Voters should be notified if their local registrar believes the signature on their mail ballot looks different than the one on file to enable the voter to verify that their signature is real

Do you believe state government has a responsibility to expand voter outreach services to encourage voting participation among under-represented groups in California elections?

Would you support or oppose state government expanding voter outreach services to encourage voting participation among under-represented groups, such as younger adults and people of color, and voters who do not speak English well?

Last year, President Trump backed the state of Texas' redrawing its Congressional district lines to favor Republicans. In response, Governor Gavin Newsom called a special election and encouraged California voters to temporarily redraw its Congressional districts to favor Democrats. This year President Trump is proposing to change the nation's election laws by imposing more restrictions that would make it harder for some citizens to vote in the nation's elections. In response, Governor Newsom is proposing to pass additional state laws that he feels will add greater protections to voting rights. Do you support or oppose Governor Newsom's efforts to counter the President's efforts to change the nation's election laws?

Banner definitions referenced in this report *(other than those taken from direct survey questions)*

Region *(from voting record)*

Los Angeles County

Orange County

San Diego County

Inland Empire *(Riverside, San Bernardino and Imperial counties)*

Central Coast *(Ventura, Santa Barbara, San Luis Obispo, Monterey, Santa Cruz, and San Benito counties)*

Central Valley (net) *(includes all counties in the Sacramento Valley and San Joaquin Valley referenced below)*

Sacramento Valley *(Shasta, Tehama, Glenn, Butte, Colusa, Yuba, Placer, Sutter, Yolo, El Dorado, and Sacramento counties)*

San Joaquin Valley *(San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and Kern counties)*

San Francisco Bay Area *(Alameda, Contra Costa, San Francisco, Marin, Napa, Sonoma, Solano, San Mateo, Santa Clara)*

North Coast/Sierras *(Del Norte, Siskiyou, Modoc, Humboldt, Trinity, Lassen, Mendocino, Plumas, Sierra, Nevada, Lake, Alpine, Amador, Calaveras, Tuolumne, Mono, Mariposa, Inyo counties.)*

Urbanicity *(from geographic information on voting record and coded into GDC codes)*

Urban *(GDC codes 4, 7, 17, 19, 21, 31, 35, 40, 42, 43, 45, 56, & 63)*

Suburban *(GDC codes 1, 2, 3, 6, 8, 10, 12, 13, 14, 16, 20, 22, 25, 26, 30, 33, 34, 36, 37, 41, 47, 48, 49, 50, 53, 54, 59, 61, 64, 66, & 67)*

Rural *(GDC codes 5, 9, 11, 15, 23, 24, 27, 28, 29, 32, 38, 39, 44, 46, 51, 52, 55 & 57)*

Language

Latino English dominant: *(Latino voters who say they speak English primarily or who say they speak both English and Spanish but chose to complete the survey in English)*

Latino Spanish dominant: *(Latino voters who say they speak Spanish primarily or who say they speak both English and Spanish but chose to complete the survey in Spanish)*

AAPI English dominant: *(Asian or Pacific Islander voters who say they speak English primarily or who say they speak both English and an Asian language but chose to complete the survey in English)*

AAPI Asian language dominant: *(Asian or Pacific Islander voters who say they speak Chinese, Vietnamese, or Korean or who say they speak both English and an Asian language but chose to complete the survey in Chinese, Vietnamese or Korean)*

Gender *(from voting record)*

Male

Female

Generational status

First generation: *(Voters who report being born in another country)*

Second generation: *(Voters who report being born in the U.S. but who report that one or more of their parents were not born in the U.S.)*

Third + generation: *(Voters who report that both they and both of their parents were born in the U.S.)*

Party registration *(from voting record)*

Democrat

Republican

No Party Preference/other party

Voting frequency *(from voting record)*

Regular voter: *(Voting record indicates that voter voted in at least 5 of the last 7 statewide elections since 2020)*

Not regular voter: *(Voting record indicates that voter voted in 0-4 of the last 7 statewide elections since 2020)*

About the Institute of Governmental Studies

The Institute of Governmental studies (IGS) is an interdisciplinary organized research unit that pursues a vigorous program, of research, education, publication and public service. A component of the University of California system's flagship Berkeley campus, IGS is the oldest organized research unit in the UC system and the oldest public policy research center in the state. IGS's co-directors are Professors Eric Schickler and G. Cristina Mora.

IGS conducts periodic surveys of California public opinion in California on matters of politics and public policy through its *Berkeley IGS Poll*. The poll seeks to provide broad measures of contemporary public opinion and generate data for scholarly analysis. Veteran pollster Mark DiCamillo serves as director of the *Berkeley IGS Poll*. For a complete listing of reports issued by the poll, please visit <https://www.igs.berkeley.edu/research/berkeley-igs-poll>.

About the Evelyn and Walter Haas, Jr. Fund

The Evelyn and Walter Haas, Jr. Fund works to advance equality and justice so every person can thrive and live life with dignity and hope. Rooted in the Bay Area, it focuses on a set of issues that include building a fairer, more representative democracy in California; advancing more humane approaches to immigration and expanding opportunities for immigrant youth and families; and making higher education more affordable for lower-income California students. It has awarded over \$695 million in grants since its founding in 1953.

Table 106: Q15. Currently Californians are required to prove their voting eligibility when they register to vote but are not required to do so when they cast their ballot. A statewide ballot measure has been proposed that would require voters to verify their eligibility to vote when voting. This would mean that those choosing to vote in person would need to bring to the polls a government-issued identification card, while those voting by mail or using a drop box would need to list the last 4 digits of a valid voter identification card onto their ballot envelope. Do you support or oppose this new photo identification voting requirement? (Statewide Registered Voters)

Table 111: Q16. Supporters say photo identification laws are necessary to prove the identity of all voters to prevent fraud and prohibit non-citizens from voting. Opponents say voters have already proven their identity when registering to vote and note that many eligible voters may find it difficult to find and produce an unexpired drivers' license, passport or similar document, and thus could be denied the right to vote. When weighing these arguments, are you now more likely to support the voter identification laws, more likely to oppose them, or do they have no effect on your opinion? (Statewide Registered Voters)

Table 126: Q19. The Voting Rights Act of 1965 provided voters with strong protections against voting discrimination and unequal access to the ballot among voters of color. Over the past 15 years the United States Supreme Court has issued rulings that have rolled back some of these protections and is currently considering another case that could roll back these protections further. Do you support or oppose the Supreme Court's acting to further limit the provisions of the Voting Rights Act? (Statewide Registered Voters)

Table 128: Q19. The Voting Rights Act of 1965 provided voters with strong protections against voting discrimination and unequal access to the ballot among voters of color. Over the past 15 years the United States Supreme Court has issued rulings that have rolled back some of these protections and is currently considering another case that could roll back these protections further. Do you support or oppose the Supreme Court’s acting to further limit the provisions of the Voting Rights Act? (Statewide Registered Voters)

Table 186: Q24. Last year, President Trump backed the state of Texas’ redrawing its Congressional district lines to favor Republicans. In response, Governor Gavin Newsom called a special election and encouraged California voters to temporarily redraw its Congressional districts to favor Democrats. This year President Trump is proposing to change the nation’s election laws by imposing more restrictions that would make it harder for some citizens to vote in the nation’s elections. In response, Governor Newsom is proposing to pass additional state laws that he feels will add greater protections to voting rights. Do you support or oppose Governor Newsom’s efforts to counter the President’s efforts to change the nation’s election laws? (Statewide Registered Voters)

Table 188: Q24. Last year, President Trump backed the state of Texas’ redrawing its Congressional district lines to favor Republicans. In response, Governor Gavin Newsom called a special election and encouraged California voters to temporarily redraw its Congressional districts to favor Democrats. This year President Trump is proposing to change the nation’s election laws by imposing more restrictions that would make it harder for some citizens to vote in the nation’s elections. In response, Governor Newsom is proposing to pass additional state laws that he feels will add greater protections to voting rights. Do you support or oppose Governor Newsom’s efforts to counter the President’s efforts to change the nation’s election laws? (Statewide Registered Voters)
