1	Partitura/Score

Instrucciones

General

Arcadas

	talón
	punta
	tremolo lo más rápido posible
	movimiento vertical del arco (raspar contra las cuerdas)
	ritmo de arco indeterminado, (como el movimiento de un borracho)

notas tenidas (mantener sonido)

tremolo medido (aproximado)

Las arcadas indicadas son utilizadas para evitar la escritura de ligaduras, no para indicar fraseo.

Arco con presión

Arco con presión “ordinario”, cubriendo cuerdas señaladas (posición aleatoria), sonido sucio y rugoso con poca presencia de altura fija.

Arco con presión máxima, usando 1/3 del arco (al talón) sonido granular, sin presencia de altura fija el movimiento del arco debe ser lo más lento posible, ej. “String quartet describing the motions of large real bodies - Robert Ashley”

Ataques del arco

ex. sp.	- extremo sulponticello
sp.	- sulponticello
ord.	- ordinario
st.	- sultasto
salt.	- saltato
legno	- col legno
flt.	- flautatto

	alteraciones un poco altas
	alteraciones un poco bajas
	cubriendo cuerdas (mute)
	ordinario
	posición de armónico (altura variable)

nota más aguda posible

armónicos

arpeggio pizzicato cubrir cuerdas indicadas, la zona a cubrir la determina la nota real. (como una guitarra)

Acciones sobre el puente

Arco sobre un costado del puente controlando la presión del arco, se busca la liberación de armónicos generada por el roce del arco con el puente.

presión del arco:

- poca presión (liberación de armónicos)
- mucha presión (saturación de armónicos)
- — ■ transición

Arco sobre el puente, 45° de inclinación sobre el puente sonido "airoso" producto del frote del arco contra la madera del puente

Claves

Clave del diapasón al puente

Indica el movimiento y/o acciones señaladas desde la cabeza del instrumento hasta el puente, el punto de ataque es aproximado.

Zona de ataque

Zona de ataque

violin, viola

cello

Cubriendo cuerdas indicadas la línea indica dirección y movimiento de la mano izquierda

Cubriendo cuerdas indicadas la línea indica dirección y movimiento de la mano izquierda

Pizzicato sobre zona indicada, mano izquierda - cubrir cuerdas señaladas y atacar con pizz. de mano izquierda mano derecha - pizz. normal

Arco/legno saltato sobre zona indicada, lo más agresivo posible

Clave detrás del puente

Tocar cuerda(s) detrás del puente, zona de ataque entre el puente y el cordal.

Claves de posición

Mantener posición señalada, alternando presiones en mano izquierda y presión del arco

- ordinario
- ◆ ◊ posición de armónico (altura variable)
- cuerda al aire (liberar posición)

números romanos - cuerdas

números en círculo - dedos

Glissando corto, moviendo toda la posición. Al término del glissando, regresar a la posición inicial.

Clave de posición móvil

Mantener forma resultante de la posición señalada y mover de acuerdo a la “clave del diapasón al puente”, siempre tratando de mantener la forma en la medida de lo posible.

zona de ataque del arco cuerdas a atacar

movimiento de la posición dentro de clave

arco vertical sobre cuerdas señaladas muy agresivo

movimiento de la posición dentro de la clave

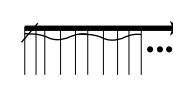

zona de ataque del arco cuerdas a atacar

movimiento de la posición dentro de clave

Performance Notes

General

Bowing

-  frog
-  tip
-  tremolo as fast as possible
-  vertical movement of the bow
(grasp against strings, very aggressive)
-  indeterminate bow rhythm
(like a drunk movement)

Bow attacks and regions

- ex. sp. - extremo sulponticello
- sp. - sulponticello
- ord. - ordinary
- st. - sultasto
- salt. - saltato
- legno - col legno
- flt. - flautatto

Accidentals and head notes

-  pitch a little high
-  pitch a little low
-  cover strings (mute)
-  ordinary
-  harmonic position (random resultant note)

sustained note

measured tremolo (approximate)

The remarked bowings are used to evade writing of ties, not for bowing phrasing.

pitch as high as possible

harmonics

arpeggio pizzicato
cover indicated strings, the covering zone is determined by the ordinary pitch, let the hand rest in the fingerboard to mute the non-used strings. (like a guitar)

Bow pressure

“ordinary” bow pressure, covering indicated strings (random position), dirty and rough sound with low presence of natural pitch.

maximum bow pressure, 1/3 of the bow (with frog)
granular sound, without presence of natural pitch
the movement of the bow must be as slow as possible,
ex. “String quartet describing the motions of large real bodies - Robert Ashley”

Actions on the bridge

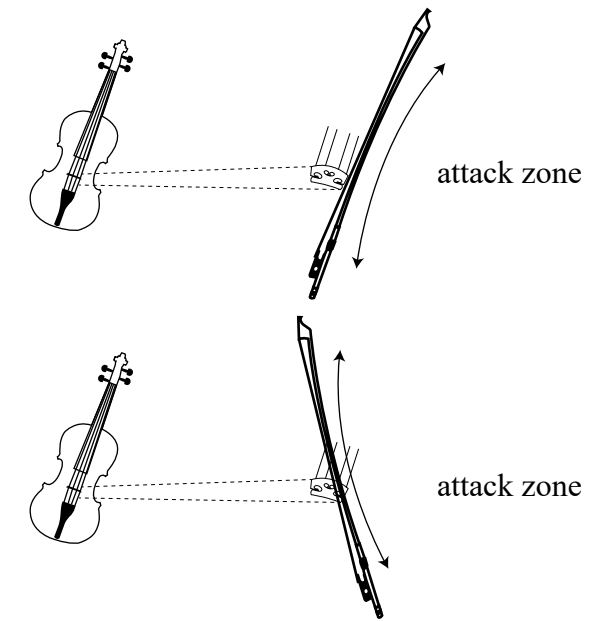

bow on one side of the bridge controlling the pressure of the bow, it seeks the release of harmonics generated by the friction of the bow with the side of the bridge.

bow pressure:

- little pressure (harmonic release)
- high pressure (harmonic saturation)
- — ■ transition

bow over bridge, 45 ° inclination over bridge. It seeks an “airy sound” resultant of the rub of the bow against the bridge wood.

Clefs

Fingerboard to bridge clef

Used to indicate the movement and/or actions from the beginning of the fingerboard to the bridge, the attack zone is approximate.

covering indicated strings, line indicates direction and movement of the left hand.

covering indicated strings, line indicates direction and movement of the left hand.

double pizzicato

left hand - left hand pizz attack, cover strings, the covered zone is determined by the position of the l.h. pizz, let the hand rest in the fingerboard to mute the non-used strings.
right hand - normal pizz.

arco/legno saltatto over indicated zone, as aggressive as possible.

Behind the bridge clef

play strings behind the bridge,
attack zone between the bridge and the tailpiece.

Position clef

keep indicated position, alternating pressures on the left hand and bow pressure.

- ordinary left hand pressure
- ◆ ◇ harmonic position (random resultant note)
- open strings (free position)

- maximum bow pressure
- ▣ ordinary bow pressure
- minimum bow pressure (airy sound)

roman numerals indicates string number
arabic numerals indicates fingering

Short glissando moving the whole position,
when the gliss is over, return to original position.

Mobile position clef

Keep the hand shape of the indicated position and move according to the "fingerboard to bridge clef" always trying to keep the hand shape position, as far as possible.

bow attack zone
strings to play

movement of the position inside the clef

vertical bow movement over indicated strings
as aggressive as possible.

movement of the position inside the clef

bow attack zone
strings to play

movement of the position inside the clef

188

Vln. I

Vln. II

Vla.

Violin I (Vln. I), Violin II (Vln. II), Viola (Vla.), and Violoncello (Vlc.) parts for measures 244-254. The score includes various performance instructions such as *salt.*, *ord.*, *arco sp.*, *arco ord.*, *pizz.*, *mf*, *p*, *ff*, and *fff*. It also features fingering diagrams for the strings and dynamic markings like *pp* and *ff*. The time signature changes to 4/4 at the end of the section.

Violin I (Vln. I), Violin II (Vln. II), Viola (Vla.), and Violoncello (Vlc.) parts for measures 255-264. This section is characterized by dense string textures and includes performance instructions such as *sul IV pizz.*, *sempre*, *fff*, *mf*, *fff*, *salt. col. legno*, and *pizz. III, IV*. Fingering diagrams are provided for the strings, and dynamic markings like *fff sempre* and *mf < fff* are used throughout.

291

Vln. I

Vln. II

Vla.

Vlc.

musical score for measures 291-321, featuring Violin I, Violin II, Viola, and Violoncello. The score includes various dynamics (mf, fff, sfz, p), articulations (salt. col. legno, pizz., legno), and fingering indications (I, II, III, IV).

322

Vln. I

Vln. II

Vla.

Vlc.

musical score for measures 322-352, featuring Violin I, Violin II, Viola, and Violoncello. The score includes various dynamics (mf, fff, sfz, p), articulations (legno, pizz.), and fingering indications (I, II, III, IV).

570

Vln. I

Vln. II

Vla.

Vlc.

This section of the score contains measures 570 through 600. It is divided into four staves: Vln. I, Vln. II, Vla., and Vlc. Each staff includes a graphic representation of bow pressure and fingerboard position. The Vln. I part shows a dynamic range from p to ff . The Vln. II part includes a detailed diagram of bow and fingerboard positions, with dynamics ranging from ff to $sim.$ and $arco$ markings. The Vla. part has dynamics from p to ff and includes a 'senza posizione' marking. The Vlc. part features a rapid oscillating bow pressure line, with dynamics from p to ff . A central staff shows a melodic line in treble clef with dynamics from mf to ff . A bottom staff shows a rhythmic pattern with dynamics from p to ff .

601

Vln. I

Vlc.

x 4

poco a poco

This section contains measures 601 through 604. The Vln. I part shows a dynamic range from p to mf . The Vlc. part has dynamics from p to mf and includes a 'poco a poco' marking. The bottom staff shows a melodic line starting at mf and ending at p . The Vln. I part is repeated four times (x 4) across the measures.
