Corrigendum

Corrigendum to "The behavior of chalcophile elements during magmatic differentiation as observed in Kilauea Iki lava lake, Hawaii" [Geochim. Cosmochim. Acta 210 (2017) 71–96]

The authors regret that a figure referenced in the supplementary information was inadvertently left out of the supplementary files. This supplementary figure has been added for the reader's reference. The authors would like to apologise for any inconvenience caused.

Supplementary Figure: fO2 of eight samples calculated using the oxide oxy-thermobarometer of Ghiorso and Evans (2008). A min and max value were determined for each sample given the variation in oxide compositions found within the sample.
