frontiers of biogeography
the scientific magazine of the International Biogeography Society
volume 6, issue 1 - march 2014
ISSN 1948-6596

frontiers of biogeography is published by the International Biogeography Society (IBS), an international and interdisciplinary society contributing to the advancement of all studies of the geography of nature.

frontiers of biogeography aims to be a forum for biogeographers and a way to disseminate research in biogeography to the general public; our scope includes opinions, perspectives, and reviews, symposia proceedings, research letters, book reviews, research updates, interviews, and articles on how to teach, disseminate and/or apply biogeographical knowledge. Research letters and symposium proceedings may include novel analyses of original datasets (see editorial instructions). Manuscripts should be submitted via eScholarship at http://escholarship.org/uc/fb. Editorial enquiries should be made to frontiersofbiogeography@gmail.com, unless stated otherwise.

frontiers of biogeography uses a publication agreement based on the Creative Commons scheme to ensure that the authors retain full intellectual property (IP) rights on their work, and that this is freely available for any non-commercial use. Under this agreement, the IBS retains only the copyright of the journal compilation under a Creative Commons Attribution Non-Commercial No Derivatives (CCANCN) license. The authors have full IP over their texts under an universal Creative Commons Attribut License (CCAL), being able to distribute their work (including the original PDFs) actively from the day of publication, and passively from one year after (see the full license information at the end of the issue).
