**Tabulations from an early June 2024 Poll of
California Registered Voters about
Interest in Voting in the 2024 General Election**

by the
Berkeley IGS Poll
Institute of Governmental Studies
University of California, Berkeley

May 29-June 4, 2024

Introduction

The statistical tabulations in this volume are based on a *Berkeley IGS Poll* completed online May 29-June 4, 2024 among 5,095 registered voters throughout California. The survey was conducted in five languages: English, Spanish, Chinese, Vietnamese, and Korean by the Institute of Governmental Studies (IGS) at the University of California, Berkeley on behalf of the Evelyn and Walter Haas Jr Fund.

The poll was conducted by distributing email invitations to stratified random samples of the state's registered voters. Each email invited voters to participate in a non-partisan survey conducted by the University and provided voters with a link to the IGS website where the survey was housed. To accommodate non-English language voters, voters whose voting record indicated that they preferred to have their voting materials sent to them in a Spanish, Chinese, Vietnamese or Korean were sent their email invitations in-language asking them to choose which language they preferred to complete the survey. Reminder emails were distributed to non-responding voters and an opt out link was provided for voters not wishing to receive further email invitations.

Voter email addresses were derived from public information contained on the state's voter registration rolls and were provided to IGS by Political Data, Inc., a leading supplier of registered voter lists in California.

To protect the anonymity of respondents, voters' email addresses and all other personally identifiable information derived from the original voter listing were purged from the data file and replaced with a unique and anonymous identification number during data processing. In addition, after the completion of data collection, post-stratification weights were applied to the survey data file to align the sample of registered voters to population characteristics of the registered voters statewide and within major regions of the state.

The sampling error associated with the survey results is difficult to calculate precisely because of sample stratification and the post-stratification weighting. Nevertheless, it is likely that findings based on the overall sample of registered voters are subject to a sampling error of approximately +/-2.0 percentage points at the 95% confidence level.

Regional definitions referenced in this report

The results from the state's geographic regions referenced in this volume are comprised of the following counties:

Los Angeles County (Los Angeles County)

Orange County (Orange County)

San Diego County (San Diego County)

Inland Empire (Riverside, San Bernardino and Imperial counties)

Central Coast (Ventura, Santa Barbara, San Luis Obispo, Monterey, Santa Cruz, and San Benito counties)

Sacramento Valley (Shasta, Tehama, Glenn, Butte, Colusa, Yuba, Placer, Sutter, Yolo, El Dorado, and Sacramento counties)

San Joaquin Valley (San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and Kern counties)

Central Valley (net) (includes all counties in the Sacramento Valley and San Joaquin Valley referenced above)

SF Bay Area (Alameda, Contra Costa, San Francisco, Marin, Napa, Sonoma, Solano, San Mateo, Santa Clara).

North Coast/Sierras (Del Norte, Siskiyou, Modoc, Humboldt, Trinity, Lassen, Mendocino, Plumas, Sierra, Nevada, Lake, Alpine, Amador, Calaveras, Tuolumne, Mono, Mariposa, Inyo counties.)

About the Institute of Governmental Studies

The Institute of Governmental Studies (IGS) is an interdisciplinary organized research unit that pursues a vigorous program of research, education, publication and public service. A component of the University of California system's flagship Berkeley campus, IGS is the oldest organized research unit in the UC system and the oldest public policy research center in the state. IGS's co-directors are Professor Eric Schickler and Associate Professor G. Cristina Mora.

IGS conducts periodic surveys of public opinion in California on matters of politics and public policy through its *Berkeley IGS Poll*. The poll seeks to provide a broad measure of contemporary public opinion, and to generate data for subsequent scholarly analysis. Veteran pollster Mark DiCamillo serves as director of the *Berkeley IGS Poll*. For a complete listing of stories issued by the *Berkeley IGS Poll* and a more detailed description of the methods used to conduct each survey go to <https://www.igs.berkeley.edu/research/berkeley-igs-poll>.

Table 1: Q3 Not everyone has the time or interest to vote in every election. On a scale of 1 to 10, where (1) means you will definitely not vote and (10) means you definitely will vote, how likely is it that you will vote in this year's November general election. Choose any number between 1 and 10 for your answer. (Statewide Registered Voters)
