Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-017-17999-3>, published online 19 December 2017

This article contains errors in the Introduction, where

“*App*^{NL-G-F/NL-G-F} mice carrying the homozygous mutant *App* gene encoding the humanised A β sequence (G601R, F606Y, and R609H) with three pathogenic mutations, namely Swedish (KM595/596NL), Beyreuther/Iberian (I641F), and Arctic (E618G)¹⁰, progressively exhibit A β accumulation starting at 4 to 6 months of age, dense distributions of microglia and astrocytes from 9 months of age, and behavioural symptoms from 8 to 12 months of age^{10,11}.”

should read:

“*App*^{NL-G-F/NL-G-F} mice carrying the homozygous mutant *App* gene encoding the humanised A β sequence (G676R, F681Y, and R684H) with three pathogenic mutations, namely Swedish (KM670/671NL), Beyreuther/Iberian (I716F), and Arctic (E693G)¹⁰, progressively exhibit A β accumulation starting at 4 to 6 months of age, dense distributions of microglia and astrocytes from 9 months of age, and behavioural symptoms from 8 to 12 months of age^{10,11}.”

In addition, in the Methods section, under the subheading ‘Animals’,

“Heterozygous *App*^{+ /NL-G-F} mice carrying humanised A β sequence (G601R, F606Y, R609H), Swedish (ML595/596NL), Beyreuther/Iberian (I641F), and Arctic (E618G) mutations, were previously established¹⁰.”

should read:

“Heterozygous *App*^{+ /NL-G-F} mice carrying humanised A β sequence (G676R, F681Y, R684H), Swedish (KM670/671NL), Beyreuther/Iberian (I716F), and Arctic (E693G) mutations, were previously established¹⁰.”
