Norme:
a chamber opera

Andrew V. Ly

August 2019

Description

Norme is scored for three singers and eleven instrumentalists, divided into six groups: (1) piano; (2) soprano, flute, clarinet, soprano saxophone; (3) harp; (4) soprano, percussion (one player); (5) string quartet; (6) soprano, percussion (one player). This document includes a program note, performance notes, libretto (authored by the composer), notation guide, and score (in C).

The action of the opera can be described as follows. The audience enters a large room that resembles a dilapidated Victorian-era home library. Arranged within the space are six groups of instrumentalists, three of which include soprano singers. It seems that the audience has wandered into a museum of sorts, a menagerie of android musicians whose creator has not finished fully encoding them with human abilities. The singers are rehearsing Bellini's *Norma*, but things are not right. Rather than a single Norma protagonist, there are three. They do not see or hear each other, often singing over each other, fragmenting their melodies, and practicing different articulations of their phrases. Their bodies, hands, and faces address invisible audiences. Bellini's opera seems to be the only cultural artifact left in this world, and the androids are spending the rest of eternity rehearsing it. They behave as though, through sheer repetition, they can will into existence human feelings that no longer exist. As the androids are singing, large projected surtitles translating the sung Italian words are displayed, but once again something is amiss. The translations become inaccurate—someone is hacking into the system. Is it an observer to this ritual, or the puppet master behind it?

Norme is an opera that examines the practice of operatic performance. It brings audiences face-to-face with opera singers rather than placing the singers on a distant stage. It also upends the idea of a performance in two respects: first, the characters appear to be only 'rehearsing' and do not see or hear anything besides themselves; and second, the mistranslated surtitle projections obscure the transmission of meaning between performer and audience. Finally, *Norme* depicts a genre known for excess as an intimate and individual exploration, one devoid of spectacle and also of humans entirely. What does opera look like after humans are gone? *Norme* invites us to consider what to make of love, sorrow, and duty in the absence of those lived experiences, when all that is left are the gestures that used to accompany those feelings.

This piece lasts approximately 48 minutes and is in four movements:

- Part I: c. 11'30"
- Part II: c. 12'00"
- Part III: c. 11'30"
- Part IV: 13'00"

Program Note

Norme is an opera designed to be performed in a large gallery or installation space. The title refers to the three sopranos who play musical automata that simultaneously sing excerpts from Vincenzo Bellini's *Norma* (1831). "Norme" also references the Italian word that translates to the word "norms," meaning rules or standards, particularly those concerning behavior. While Bellini's opera depicts the violation of norms concerning chastity and loyalty, my opera engages with norms and their boundaries in relation to machine expression. This concern was apparent in the early 19th century, when writers such as E.T.A. Hoffmann discussed anxieties about the role of machines in musical performance. A monologue from Hoffmann's story "Die Automate" (1819) explains this unease:

To set to work to make music by means of valves, springs, levers, cylinders, or whatever other apparatus you choose to employ, is a senseless attempt to make the means to an end accomplish what can result only when those means are animated and, in their minutest movements, controlled by the mind, the soul, and the heart. The gravest reproach you can make to a musician is that he plays without expression; because, by so doing, he is marring the whole essence of the matter. Yet the coldest and most unfeeling executant will always be far in advance of the most perfect machines. For it is impossible that any impulse whatever from the inner man shall not, even for a moment, animate his rendering; whereas, in the case of a machine, no such impulse can ever do so.

The theme of norms here is twofold: while the norm of human expression is plainly disturbed by mechanical imitation, Hoffmann also raises a fundamental question about the implications of behavioral norms: Are they not realized by physical actions that are repeated, reinforced, and potentially identical between human and machine agents? If we take Hoffmann's text seriously, why might it be that no machine impulse can ever properly animate sound the way that the human mind, soul, and heart can? At issue is whether humans can perceive something akin to a human mind behind a mechanically generated sound. But might it be too easy to dismiss machine actions categorically as unable to simulate the human mind and consequently emote genuine expression?

The issue of genuine expression is not limited to machines, which is why my opera doesn't feature any musical machines or electronic musical technology. I am interested in how humans adhere to behavioral norms, rules, and standards with the aim—but never the guarantee—of developing some desired mental state. In this respect, the genuineness of our actions is as ambiguous as those of machines. The young musician practices an instrument, trains with master teachers, and learns canonic repertoire, but may never develop compelling interpretive faculties. The acolyte studies ancient texts, performs solemn ceremonies, and recites sequences of vows, but may never achieve the conviction of a true believer. I may say I love you, but even after years of courtship and marriage, do I really? You may feed the hungry and shelter the homeless, but how do you will into existence the stirrings of compassion where none exist?

Norme seeks to dramatize this disconnect between physical actions and mental states: we find ourselves in an abandoned Victorian library populated by mechanical singers ("Norme") that ritualistically rehearse *Norma* as if to reawaken and internalize long lost human emotions. My work aims to illustrate an evocative statement from Ludwig Wittgenstein's *Philosophical Investigations* (1953): "When children play trains, their game is connected with their acquaintance with trains. It would nevertheless be possible for the children of a tribe unacquainted with trains to learn this game from others, and to play it without knowing that it was imitating anything. One could say that the game did not make the same kind of *sense* to them as to us." In the world of *Norme*, the apparent exercise of human emotions by musical automata is precisely meant to illuminate the difference between an imitative, decontextualized behavior and its original source.

My compositional approach draws from the tradition of études, a pedagogical genre designed to develop technical facility in an instrument. (In fact, the piano and harp parts quote directly from Franz Liszt's *Transcendental Études* (1852), albeit on instruments so heavily altered as to retain only the gestures of virtuosity.) The singers' parts, in addition to exercising vocal technique, assume a moral dimension by virtue of the dramatic contexts from their source material. For instance, to perform a phrase such as *Ah! tergi il pianto* (Ah! do not weep) is not merely to execute a beautiful melodic fragment, but also to convey feelings of friendship and sympathy. I follow the most general characteristics of études—repetition with variation, at different dynamics and tempi—but instead of scales, my singers rotate mechanically through communication levels that affect vocal production: *a un gruppo* (to an audience), *dialogando* (conversationally), *confidandosi* (intimately), and *a se stessa* (to herself). These Norme, singing *Norma* fragments while opaquely shifting mental states, present a 21st century version of the conventional 19th century mad scene in Italian opera. I am indebted to György Ligeti's *Aventures* (1962) and *Nouvelles Aventures* (1965) for this type of singer indication, and for a vision of music theater in which the singing performer's psychology is necessarily interrogated by the audience.

The dramatic structure of *Norme* follows two distinct and parallel tracks: the first is the musical performance itself, and the second is the projected surtitles, which present a meta-narrative by Ada Lovelace as excerpted from her 1840's private letters. Lovelace, generally credited as the first person to have written a machine algorithm, was an avid musician and admirer of *Norma*. While her words ostensibly “translate” the stage action, they in fact tell her own story. Lovelace struggled with her health and the range of her ambitions—a stark contrast to Norma's struggles with betrayal and sacrifice. But at least with regards to their strength of character and the trust they inspired in others, the two women have much in common.

Instrumentation

- Group 1:
 - o Piano (prepared with non-adhesive putty and welding magnets); see **Notation Guide: Piano and Harp Preparation** for details
- Group 2:
 - o Norma B (soprano)
 - Tam-tam, gong mallet, and “knife”; see **Notation Guide: Percussion Legend** for details
 - o Dolls (2); see **Notation Guide: Percussion Legend** for details
 - o Wind Trio
 - Flute
 - Clarinet in B-flat
 - Soprano Saxophone
- Group 3
 - o Harp (prepared with cloth, erasers, and plastic hair claw clips); see **Notation Guide: Piano and Harp** for details
- Group 4:
 - o Norma A (soprano)
 - Tam-tam, gong mallet, and “knife”; see **Notation Guide: Percussion Legend** for details
 - o Doll (1); see **Notation Guide: Percussion Legend** for details
 - o Percussion I (1 player); see **Notation Guide: Percussion Legend** for details
- Group 5:
 - o String Quartet (scordatura); see **Performance Notes: Musicians** for details
 - Violin I
 - Violin II
 - Viola
 - Cello
- Group 6:
 - o Norma C (soprano)
 - Tam-tam, gong mallet, and “knife”; see **Notation Guide: Percussion Legend** for details
 - o Doll (1); see **Notation Guide: Percussion Legend** for details
 - o Percussion II (1 player); see **Notation Guide: Percussion Legend** for details

Performance Notes: Physical Environment

The diagram above roughly indicates how the various instrumental groups should be spatially arranged within a single chamber. The acoustic environment should determine exactly how far apart groups should be from one another. Every group should be distinctly audible at every spatial position, but naturally the groups will not be equally perceived by the spatialized listener. In general, a more resonant acoustic space is preferred over a drier one.

The floor should be level and no groups should be elevated. Their respective physical boundaries are demarcated by a dim circular spotlight. The circle's radius (i.e., the illuminated space between the performers and the light's edge) for groups with only instrumentalists is roughly three feet, and for groups with singers it is roughly six feet. The extra space for the singers accommodates their physical movements; at no point are they to cross beyond the light's edge. These movements, and the general comportment of all performers, are the purview of the stage director.

Ample space beyond the spotlights should allow for audience members to move comfortably around the room. A rough estimation for the room's size is a basketball court (4,700 square feet). Chairs, sofas, or other seating furniture should be provided and fashioned in a manner consistent with the room's visual design. The exit door from this room must be shrouded by a curtain to minimize disturbance from audience members who enter or leave during the performance.

The opera may be produced in one of two ways. The first way is as a traditional show: The musicians are pre-assembled in the room before audience members arrive, and after the audience has settled, the performance begins. The second way is as an installation: The time of performance is pre-announced, and the opera begins just before the doors open for audience entry; audience members may come and go as they please. In both performance situations, the spotlights fade when the opera ends and the curtains in front of the exit open, signaling the audience to leave. The musicians should not move until all audience members have left the room.

Supertitles are initially projected onto a blank wall behind Group 2 (Norma B), and they later appear on all walls to facilitate audience comprehension as the piece unfolds. The font should be an Old Style in the Serif family (e.g., Goudy Old Style), and the size should be

large enough to be comfortably read at a glance, but not too big as to be distracting from the musical performances.

The set design for the room should follow two points of inspiration. The first is Victorian era home libraries, possibly featuring (but not limited to): wooden shelving, cabinets, and tables; decorative trim and moldings; old books and paintings; brass light fixtures; faded upholstery; and perhaps a fireplace. The second is the world of uncanny automata described in E.T.A. Hoffmann's "Die Automate": nutcrackers, puppets, marionettes, musical clocks, and life-like figurines. All objects should appear aged and neglected. They are arranged in a disorderly fashion around the room, as if by an eccentric tenant who had long abandoned the premise. Aside from the dim spotlights, the room is otherwise only barely lit, if at all. The overall atmosphere should be mysterious and ominous.

Costumes for the performers should fit the style described above, and the singers especially should be fabulously attired. The instrumentalists should be dressed more modestly, and similar to others within their instrument groups: string players, wind players, percussionists, and pianist/harpist should all have distinct sartorial identities. One significant and non-negotiable detail is that the instrumentalist's eyes must not be visible to the audience. Any accessories used to achieve this effect (e.g., gauzy blindfolds, goggles, sunglasses) must be consistent with the overall aesthetic.

Performance Notes: General Comments

Philip Glass remarked, after a performance of *Einstein on the Beach* at Zellerbach Hall in 2012, that it took decades before singers and musicians could perform his work correctly. There are inevitably challenges in mounting new works with unusual performance requirements. The performance notes here represent ideal states, not world-premiere conditions. In fact, a desirable proof-of-concept rendition could be entirely digital, where each part or group is recorded individually in the performance space, and the individual video and audio recordings are spatialized and “performed” in that environment (or any similar one).

For live performances, *Norme* should be performed from memory.

There is no conductor. Musicians signal each other with aural cues, but these signals must never be visually telegraphed. Instrumentalists, whose eyes are partially obscured, should take extra care to perform the music accurately and effortlessly. The collective sounds that emerge from the interaction of instrumentalists and singers must appear almost coincidental (i.e., not intentional or planned) as the performers variously “come to life.” In contrast to the singers, the instrumentalists should not direct their playing “toward” anything or anyone—they simply play.

When not performing, all instrumentalists should rest comfortably without telegraphing when their next gesture will arrive, positioning themselves to make the least movement to resume performance when cued. The percussionists and wind players should stand for the duration of the performance, if possible; the pianist, harpist, and string players should remain seated.

Performance Notes: Musicians

SINGERS

The vocal part specifies four communication levels that affect vocal production: *a un gruppo* (to an audience), *dialogando* (conversationally), *confidandosi* (intimately), and *a se stessa* (to herself). For the first three indications, the singer should direct her utterances to invisible personages—these need not be consistently located anywhere in the performance space, and they are not necessarily imagined to be the original audiences of that particular passage from *Norma*. The exceptions are in Parts III and IV during intimate moments before and after the knife scraping: here, *confidandosi* passages must be addressed directly to the doll. The four levels should sound and appear as distinct as possible from each other while still maintaining an operatic “bel canto” style of singing.

For every phrase, it is essential that the singer “means” exactly what she sings to the intended (and imaginary) audience. The vocal fragments were selected because they accommodate all four communication levels. The indication *a se stessa* is slightly more difficult to execute, but motivations for speaking to oneself abound: to practice, to remember, to question, to doubt, to affirm, to remind, etc. Although the melodic fragments and sequences of communication levels suggest a robotic character, each singer must play her role as realistically as possible. The Norme genuinely address audiences that don’t exist, and with every new fragment they are “rebooted” from short-term memory loss. This kind of apparent mental disorder should be reminiscent of 19th century operatic mad scenes. Given the proximity of audience members to the singers in the performance environment, even the minutest physical gesture must be carefully choreographed with the stage director.

In Parts II, III, and IV, the singers rotate through clusters and modules within a given map (see **Notation Guide: Singer Maps**). The score accommodates countless of these permutations, as if applying functions (i.e., performance instructions) to a list of elements (i.e., a map/cluster/module). However, parts for any given performance will choose and outline a “path” for the singer to follow.

Parts II and IV performance pattern for the sequence of modules:

(1)	(2)*	(3)*
Moderato	Andante	Andante
A se stessa	Dialogando	Confidandosi
Any (or next) module	Same module; next module	Same module; next module
3x, poco rall.	2 nd module: poco meno mosso, incomplete	2 nd module: poco più mosso

* (2) and (3) reversed between Norma A and Norma C

Part III performance pattern for the sequence of modules:

(1)	(2)	(3)	(4)	(5)
Moderato	Lento	Andante	Adagio	Lento
A un gruppo	A se stessa	Dialogando	Confidandosi	A se stessa
Any (or next) module	Same module	Next module	Same module	Next module
Complete	Incomplete	Complete	Complete	Complete

PERCUSSIONISTS

Both percussionists are enclosed within a circle of instruments (see **Notation Guide: Percussion Set-up Diagram**). The set-up diagram shows one possible arrangement and the percussionists are welcome to make changes. Movement to and from instruments

should be as discreet as possible. In consultation with the stage director, percussionists may slightly emphasize a robotic character in their gestures.

All mallets must be accessible from the percussionists' costumes, and these costumes must somehow integrate the mallets in a manner consistent with the overall visual aesthetic. All mallet changes must be as imperceptible as possible. Bows should be hung in an accessible manner near the bowed instruments.

All ringing metals and glasses must be allowed to fade into silence without dampening unless indicated. The vibraphone pedal must be held down with a mechanism for the duration of the piece. Adjust dynamics according to acoustic environment (i.e., play louder for dry spaces and quieter for resonant spaces).

PIANIST AND HARPIST

The piano and harp parts draw from the exact same musical maps, and their instruments should be prepared to achieve similar sonic effects (see **Notation Guide: Piano and Harp Preparation** and **Piano and Harp Maps**). The score accommodates countless of these permutations, as if applying functions (i.e., performance instructions) to a list of elements (i.e., a map/cluster/module). However, parts for any given performance will choose and outline a “path” for the player to follow.

The harpist should omit notes from chords that do not fit idiomatic harp voicing, as well as ignore certain impractical pedal changes that would not in any case be perceptible given the heavy preparations. The pianist should observe normal pedal changes, as if actually performing or rehearsing the études under normal circumstances.

The harpist generally echoes the pianist, and thus the harpist's instrument preparations and performance technique (in terms of tempo, articulation, and dynamics) should match those of the pianist. Both players should display a modicum of virtuosity in their gestures. Similar to the percussionists' performance, these gestures may also appear slightly robotic.

WIND TRIO

The flutist, clarinetist, and saxophonist operate musically and dramatically as one entity. Their gestures primarily involve soft trills, and these must be as delicate as possible. The wind players should match each other in articulation, timbre, and dynamics, especially during passages when they closely overlap with one another. Repeated boxed gestures should include a small element of variation or unpredictability in their execution.

STRING QUARTET

Strings III and IV for each instrument are tuned lower by one whole step and 31 cents (about a sixth tone). The musicians play primarily on these strings, and the 31-cent difference should be slightly noticeable in comparison to other pitched instruments in the room, and more noticeable in comparison to the notes played on the I and II strings.

This scordatura can be achieved in the following manner, bearing in mind that there is no value in extreme mathematical precision—the desired effect is merely one of harmonic coloration:

- First tune Violin III strings to 7th harmonic of Cello II string (which is 31 cents lower than C-natural)
- Then tune Violin IV strings down a fifth from their III strings
- Then tune Viola and Cello III strings to Violin IV strings
- Then tune Viola and Cello IV strings down a fifth from their III strings

Libretto

PART I (c. 11'30")

Measure	Supertitles	Notes
1	The pallor of death!	Text projections appear on the wall behind Norma B, and they follow almost immediately after she begins singing. They first appear as block text (i.e., all the words at once). Every new projection clears the previous projection.
2	I must confess my shame to you	
3	I ask only one thing	
4	Listen... Do this for me, if you pity...	
5	My present grief...	
6	And my grief to come... Swear it!	
7	Listen... Pallor...	
8	I must confess my shame to you Listen... Pallor...	
9	My present grief... I must confess my shame to you Listen...	
10	Pallor... Swear it! My present grief...	
11	I must confess my shame to you Listen...	
12	Pallor... Listen... Pallor...	Starting with this measure, all text projections contain a blinking cursor after the last character. Text still appears as a block.
13	I must confess my shame to you Listen...	

- Pallor...
- 14 My present grief...
 I must confess my shame to you
 Listen...
- 15 Pallor...
 Swear it!
 My present grief...
- 16 I must confess my shame to you
 Listen...
 Pallor...
- 17 [NONE]
- 18 Swear it!
 Listen...
 Pallor...
 My present grief...
- Starting with this measure, text projections appear at regular intervals within their respective measures, without regard to the singing. Forward slashes [in the score] indicate a line break. As before, new projections (i.e., new lines) clear previous ones.
- 19 Listen...
 Pallor...
 Swear it!
 I must confess my shame to you
- 20 Pallor...
 Swear it!
 Listen...
 My present grief...
- 21 Swear it!
 Listen...
 Pallor...
 I must confess my shame to you
- 22 I ask only one thing
 Listen...
 Do this for me, if you pity...
- 23 My present grief...
 And my grief to come...
 Swear it!
- 24 Listen...
 Pallor...
 I must confess my shame to you
 Listen...
 Pallor...

	My present grief...	
25	I must confess my shame to you	
26	Listen... I must	
27	I am very anxious to talk to you	Starting with this measure, projections appear on all walls, not just one. Moreover, text projections appear typed, not as text blocks. The blinking cursor remains. Every box of text represents a new line. Forward slashes [in the score] indicate line breaks. Existing text is scrolled up as new lines are projected.
28	[NONE]	
29	I have so much on many subjects,	
30	that I should like to tell you,	
31	and so little time to tell any of it.	
32	[NONE]	
33	I will confess to you	
34	I have many little things to tell you	
35	when you come...	
36	...hidden things;	
37	—that is of things hidden	
38	from eyes, ears	
39	& the ordinary senses...	
40	[NONE]	
41	You must manage	
42	if you die before me	
43	to vibrate some little things	
44	now & then	

45	into my ear.	
46	[NONE]	
47	Pray find out all you can for me, about everything	
48	curious	
49	Mysterious	
50	Marvelous	
51	Electrical	
52	&c, &c,	
53	—Be my Wonder	
54	—& —Mystery	
55	—Hunter!	
56	[NONE]	Clear supertitles a few seconds after Norma A releases her final note.

PART II (c. 12'00")

Measure	Supertitles	Notes
1	[NONE]	
2	[NONE]	
3	[NONE]	
4	[NONE]	
5	[NONE]	
6	[NONE]	
7	[NONE]	
8	You are right: I ought to do something; —to write something.	
9	But not at present.	
10	It would be a thousand pities	
11	if I were to attempt anything	
12	for long to come.	

13 [NONE]

14 These are missions for the few;

15 these are missions

16 to make better known

17 to the many laws & the glory of God;

18 and blessed are those who fulfil

19 faithfully such missions,

20 who fulfil them,

21 not for self glory & aggrandizement,

22 but for the glory of Him who is so darkly known as yet in the world

23 [NONE]

24 & for the love of those many

25 whose greatest blessing it is

26 (tho' they may yet appreciate it not),

27 to know Him a little less imperfectly!

28 [NONE]

29 [NONE]

30 Carry it out thoroughly,

31 in every principle & consequence.

32 Carry it forward ages.

33 And now let us see what are the various results that may probably follow.

34 There is in me
the most painful & ardent

35 desire after perfection
and achievement in something,

36 (& this quite unconnected with the desire of Fame or applause);

37 & this is the want

38 & struggle to vent

39 & express much deep-hidden

40	& undeveloped power	
41	& feeling...	
42	[NONE]	Clear supertitles a few seconds after strings stop playing.

PART III (c. 11'30'')

Measure	Supertitles	Notes
1	[NONE]	
2	[NONE]	
3	[NONE]	
4	In scena – singing you know that there is real acting, just as on the stage.	
5	[NONE]	
6	For example I should sing a scena from Norma, (one of those between her & Pollio say), in the little library at Ockham,	
7	[NONE]	
8	I & my Pollio being in our ordinary dresses, but doing it exactly as is done on the stage,	
9	[NONE]	
10	& the audience sitting in the large library, we merely placing ourselves so as to be seen thro' the folding-doors.	
11	[NONE]	
12	The style of song that best suits me	
13	[NONE]	
14	is that in which there is the expression of deep & stirring & generous sentiments	

like those in Norma for instance:

15	[NONE]	
16	& also those in which there is vengeance, scorn, & indignation.	
17	[NONE]	
18	Perhaps the latter you would not have imagined would be my line.	
19	[NONE]	
20	But it is marvelous they tell me,	
21	how forcefully I can express Scorn & fury, & yet	
22	[NONE]	
23	my action being all the while so tranquil & so	
24	removed from the stage...	Clear supertitles a few seconds after Norma C stops moving.

PART IV (c. 13'00")

Measure	Supertitles	Notes
1	[NONE]	
2	[NONE]	
3	[NONE]	
4	What will be my ultimate line, time can only show.	Starting with this measure, projections only appear on the wall behind Norma B.
5	Say for instance my Harp & Singing; & whatever mental pursuit I might chose ultimately.	
6	I am not dropping the thread	

of Science & Mathematics;
7 & this may probably still be my ultimate vocation.
8 Altho' it is likely perhaps to have a formidable rival
 to its being other than just my pastime;
9 should I take seriously with "undivided mind"
 to musical Composition.
10 [NONE]
11 [NONE]
12 Time goes,
13 [NONE]
14 & days,
 & weeks go,
15 [NONE]
16 without my being the least aware how much
 or how many days.
17 [NONE]
18 [NONE]
19 Mathematics & music have a large share in this,
20 [NONE]
21 & also our frequent & long expeditions
 on horseback or on foot,
22 [NONE]
23 over hills, valleys, moors, downs,
 every wild or beautiful country.
24 [NONE]
25 [NONE]
26 Time must show.
27 [NONE]
28 To say the truth,
 I have less ambition than I had.
29 [NONE]
30 Don't fancy me ill.
31 [NONE]

32 [NONE]

33 I am apparently very well at present.

34 [NONE]

35 But there are the seeds of destruction,
within me.

36 This I know.

37 [NONE]

38 I am well & happy;

39 & I hope doing my duty,

40 & getting on in everything...

41 [NONE] Over the duration of
this measure, fade
spotlights to black.
Clear supertitles a
few seconds after
Harpist stops
playing.

END

Libretto is by the composer.

Brief excerpts from Ada Lovelace's 1840's letters used in accordance with rights under Title 17 of the U.S. Code, including as to works in the public domain and 17 U.S.C. § 107.

Notation Guide: General Comments

The score is in C except for the following:

- Crotales sound two octaves higher than written
- Glockenspiel sounds two octaves higher than written
- Strings III and IV for all string instruments sound 31 cents (about a sixth tone) lower than written

Accidentals apply throughout any given measure, but courtesy accidentals are abundantly supplied.

The score is only roughly proportional: because the choice of clusters and maps is indeterminate, the endpoint of any given passage is not preordained relative to concurrent passages. Thus, performers should not worry about coordinating cut-offs or aligning vertically at most points in the score. However, they should strictly observe:

- 1) entrance cues from any given player as indicated by vertical arrows, which only extend to the nearest cued player in the score, but apply to all other resting players vertically aligned at that position;
- 2) the succession of entrances after any given cue;
- 3) tempo markings; and
- 4) meters, which coordinate musicians sharing the same time signature

Rests in parentheses require musicians to step “out of” the current meter and tempo before resuming performance. The symbols are accompanied by translations into seconds, but these are meant only as a rough guide. The rest gradations are as follows:

(Sixteenth rest)	<1" rest	Extremely short
(Eighth rest)	c. 1" rest	Very short
(Quarter rest)	1-2" rest	Short
(Half rest)	3-4" rest	Medium
(Whole rest)	5-6" (or more) rest, as indicated	Long

Rests in parentheses are unaffected by rallentando indications. At these moments, note values elongate but rest values in parentheses remain the same.

Rests without parentheses should be considered within the context of the current meter and tempo.

Quarter rests with fermatas instruct the musician to rest until the next cue.

General tempo markings are provided for all musical passages, including approximate metronome marks. It is more important that each tempo grade feels distinct from the others than that each marking adheres to some idealized speed. However, musicians within a single instrument group (i.e., singers, string players, percussionists, wind players, pianist/harpist) should agree on what any given tempo grade means to them, so that, for example, the flutist and the clarinetist don't have different versions of Moderato. The tempo gradations are as follows:

Allegro	Quarter note = c. 120	Very fast
Moderato	Quarter note = c. 96	Fast
Andante	Quarter note = c. 72	Medium
Adagio	Quarter note = c. 56	Slow
Lento	Quarter note = c. 44	Very slow

Singer Maps

Each map contains 4 clusters (i.e., systems), each containing 4 modules (i.e., measures).

Modules flow from left to right. The next module after the last module of a cluster is the first module of that cluster. "Different" clusters are those that have not yet been sung by the singer at hand.

Tempo, dynamics, and articulation have been deliberately omitted. These are provided in the actual score.

Rhythmic precision is subordinate to realistic declamation, as with traditional recitative.

Each Module must be performed to convey the meanings of the words sung, applied to the current context in the score.
Parts for any given performance will choose and outline a "path" for the singer to follow.

Map: OROVESO

Cie - lo! Ei miei fi-gli? I no - stri... fi - gli?...
Heavens! And my children? Our... children?...
Tu m'o- di... Deh! deh! ab!... m'o - di! bear me!
Do you hear me? Ah! ab!... bear me!
Ac-què - ta- ti... Tu li rac - co - gli... Ah! pa - dre! ah! pa- dre!...
Be calm... Take them... Ah! father! ab! father!...
Pa - dre, tu pian-gi? Pian - gi... e per-do - na...
Father, you weep? Weep... and forgive...

Map: SOLA

Ah! no... Diche son re - i? Ed io li sve-ne- rò?... Fe- riam...
Ah! no... What guilt have they? Can I kill them?... Strike...

Map: ADALGISA

T'i-nol - tra, o gio- vi - net-ta, t'i-nol - tra. E per - ché tre- mi?
Come here, oh child, come here. Why are you trembling?

M'abrac cia, e par - la. Che t'af-fig ge? E co - me, e quan- do...?
Embrace me, and speak. What troubles you? And how, and when...?

Ahil! sven-tu-ra - ta! Ah! ter - gi il pian - to...
Ahil! unhappy girl! Ah! do not weep. do not weep...

Se - gui... t'a - scol - to. Ah! ter - gi il pian - to. Ah! ter - gi il pian - to.
Go on... I'm listening. Ah! do not weep. Ah! do not weep.

Translations of other sung text:

Pallor di morte.	<i>The pallor of death!</i>
Io tutta l'onta mia ti rivo- lo. Una preghiera sola, odi,	<i>I must confess my shame to you. I ask only one thing listen,</i>
e l'adempi, se pietà pur merta il presente mio duol e il duol futuro. Il giura!	<i>do this for me, if you pity my present grief and my grief to come. Swear it!</i>
Ah non tremar... Trema per te (me) felon!	<i>Do not tremble... Tremble for yourself (me), traitor!</i>
Guerra! Strage! Sterminio!	<i>War! Slaughter! Extermination!</i>
Felice...	<i>Happy...</i>

Percussion Legend

PERCUSSION I (Unpitched Instruments)

Bass Drum Susp. Cymbal on Timp. II "Guiro" (large ridged metal surface) Hi-hat Cymbal Triangles Spring Coils

 Timp. II Timp. IV Ratchet

PERCUSSION I (Pitched Instruments)

Crotales (placed on Timp. IV) Crotales (mounted) Crystal Glasses (tuned) Glockenspiel (standard range)

PERCUSSION I Beaters:

- Knitting Needle (1): for "Guiro"
- Triangle Beater (1): for "Guiro" and Triangles
- Hard Rubber Mallets (2): for Bass Drum, Timpani, Susp. Cymbal, Hi-Hat Cymbal, Spring Coils, Glockenspiel, and possibly Crotales
- Hard Plastic Mallets (1 or 2): if necessary for bright ringing sound on Crotales; otherwise use Hard Rubber Mallets
- Bows (1 or 2): for Crystal Glasses
- Felt Mallets (2): for Bass Drum and Timpani

PERCUSSION II (Unpitched Instruments)

Bass Drum Susp. Cymbal on Timp. I "Guiro" (large ridged metal surface) Hi-hat Cymbal Triangles Spring Coils

 Timp. I Timp. III Ratchet

PERCUSSION II (Pitched Instruments)

Crotales (placed on Timp. III) Crotale (mounted) Vibraphone (standard range) Notes lowered 1/4 tone with putty

 ♪ held down with mechanism for duration of performance

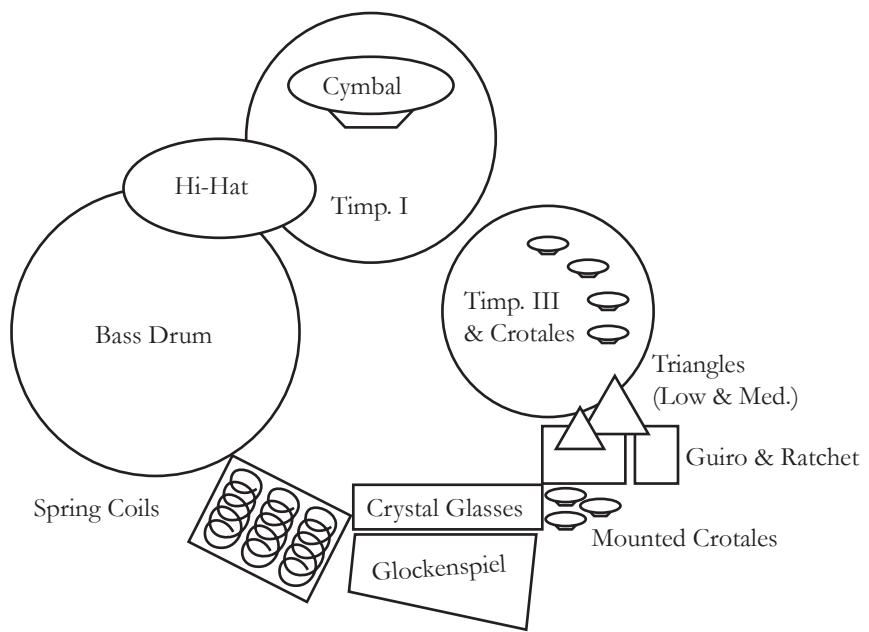

PERCUSSION II Beaters:

- Triangle Beater (1): for "Guiro" and Triangles
- Hard Rubber Mallets (4): for Bass Drum, Timpani, Susp. Cymbal, Hi-Hat Cymbal, Spring Coils, Vibraphone, and possibly Crotales
- Hard Plastic Mallets (1 or 2): if necessary for bright ringing sound on Crotales; otherwise use Hard Rubber Mallets
- Bows (2): for Vibraphone
- Felt Mallets (2): for Bass Drum and Timpani

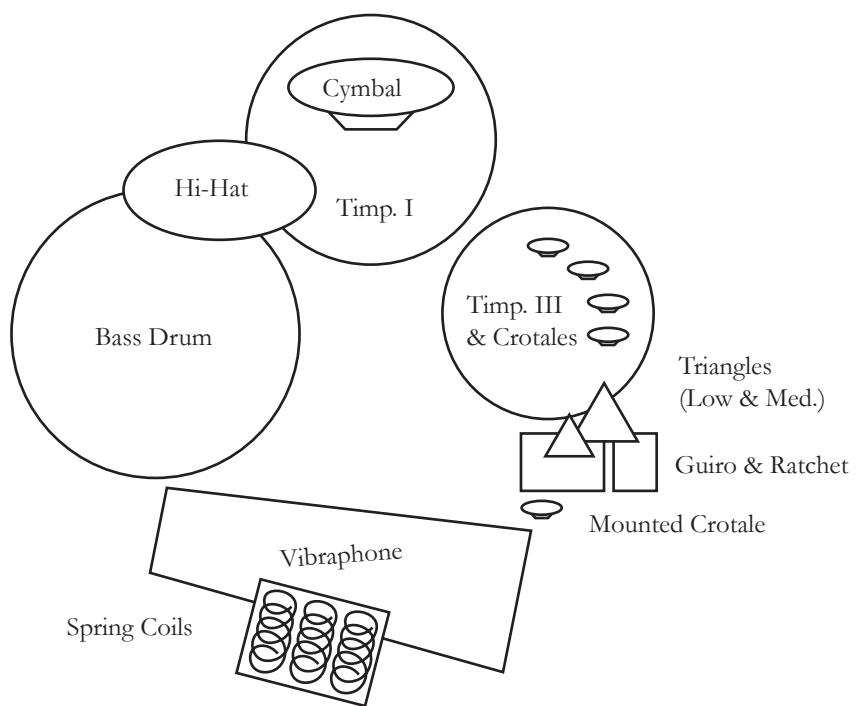

OTHER PERCUSSION INSTRUMENTS:

- Tam-Tam (3): one for each Singer, with appropriate gong mallet
- Generic Cymbals or Gongs (4): each Doll is fashioned with a freely resonating cymbal or gong as part of its torso. There are 2 adult-sized Dolls with larger metal torso surfaces, and 2 child-sized Dolls with smaller metal torso surfaces. Percussionists should work with the set/costume designer to find the right instruments for the Dolls.
- Stick Beaters (3): each Singer drags a stick beater perpendicularly across the Doll's torso. Percussionists should work with the set/costume designer to find beaters that can be fashioned into a realistic-looking knife prop. The scraped sound should blend well with the Singers' voices, Glockenspiel, and Vibraphone.

Percussion I Set-up Diagram

Percussion II Set-up Diagram

Piano and Harp Preparations

Piano Preparations

Small amount of non-adhesive putty at end of each string
The resulting sound should be slightly dampened but the pitch should remain clear

Large amount of non-adhesive putty somewhere in the middle of each string
The resulting sound should be a heavy thud with faint harmonics (exact partials are not important)

Any combination of arrow-shaped welding magnets, standing vertically somewhere across the strings (not laying flat)
Magnet sizes can range from small (2.8 inches x 1.7 inches), medium (4.7 inches x 3.2 inches), to large (6.1 inches x 4 inches)
The number of magnets of each size and their placement along the strings will vary according to the taste of the preparer
The resulting sound should be delicate, metallic, and resonant (not dull, heavy, or buzzing)
There should be a variety of indeterminate pitches across all prepared notes

A piano preparation example showing a series of notes with different accidentals (flat, sharp, natural) and a dynamic marking of 8vb.

Harp Preparations

A piece of cloth is threaded between the bottom of the strings
The resulting sound should be slightly dampened but the pitch should remain clear

Three large rubber erasers are placed near the bottom between these four strings
The resulting sound should be a dull thud with almost no pitch

Any combination of small (0.6 inch) and medium (1.3 inch) plastic hair claw clips somewhere on each string
A total of 29 clips are needed, with smaller ones for the higher register and larger ones for the lower register
The number of clips of each size and their placement along the strings will vary according to the taste of the preparer
The resulting sound should be delicate, gong-like, and resonant
There should be a variety of indeterminate pitches across all prepared notes

A harp preparation example showing a series of notes with a dynamic marking of 8vb.

Piano and Harp Maps

Each Map contains 4 Clusters (i.e., systems), each containing 2 Modules (separated by dashed barline).

Dynamics have been deliberately omitted. These are provided in the actual score.

Tempo indications are suggested. Maintain the tempo relationships between Maps G and F, and between Maps E and C.

Damper pedal usage is at the discretion of the pianist and should be liberal—let resonances naturally fade before lifting pedal.

Freely resonating (i.e., unprepared) notes are indicated with ping noteheads. All other notes have unrecognizable and distorted pitch.

All clusters quote directly from Franz Liszt's *Transcendental Études*.

The harpist may make minor adjustments to suit idiomatic playing, including ignoring any impractical pedal changes.

Parts for any given performance will choose and outline a "path" for the player to follow.

Supert. |

This musical score page features a vocal part for 'N. B.' and various instrumental parts. The vocal part includes lyrics in Italian: 'o - di, e l'a - dem - pi, se pie-tà pur mer - ta' followed by 'il pre-sen - te mio duol...'. The score is divided into measures 4 and 5. Measure 4 is labeled '(Andante) Dialogando' and measure 5 is labeled '(Andante) Confidandosi'. The instrumentation includes woodwind instruments (Flute, Clarinet, Bassoon), brass instruments (Horn, Piano), and strings (Violin I, Violin II, Viola, Cello). The vocal line is supported by percussions (Perc. I, Perc. II) and sustained notes from the piano. The score concludes with three subtitles at the bottom: 'Listen...', 'Do this for me, if you pity...', and 'my present grief...', each preceded by an upward arrow pointing to specific notes in the vocal line.

This musical score page contains five systems of music. The first system features vocal parts N. A, Perc. I, N. B, Flute (Fl.), Clarinet (Cl.), and Soprano Saxophone (S. Sax.). N. B has three vocal entries with dynamics pp, mf, and pp respectively. The second system features N. C and Perc. II. N. C has two vocal entries with dynamics pp and ppp. The third system features Horn (Hp.) and Piano (Pno.). The fourth system features Violin I (Vln. I) and Violin II (Vln. II). The fifth system features Cello (Vc.) and Double Bass (Vla.). Below the score, three boxes with arrows point to specific words in the lyrics: 'Pallor...', 'Swear it!', and 'my present grief...'. The page number 34 is at the bottom right.

Starting with this measure, projections appear on all walls, not just one.
Moreover, text projections appear typed, not as text blocks.
The blinking cursor remains.
Every box of text represents a new line.
Forward slashes indicate line breaks.
Existing text is scrolled up as new lines are projected.

Each phrase should feature a specific and synchronous change in volume, timbre, bodily gesture, and facial expression, relative to the meaning of the words sung. Remain relatively motionless during rests, as if uncertain or apprehensive.

Throughout bars 3-7, Norma A stands and addresses her audiences alone. The cycles of gestures and sung fragments (5 gestures for every 3 modules) should appear uncanny and ritualistic. At no point should the singing seem rushed.

There should never be any coordination among the Norme. Their respective modules should interact with each others' in an unpredictable manner, proceeding without regard to barlines.

Each phrase should feature a specific and synchronous change in volume, timbre, bodily gesture, and facial expression, relative to the meaning of the words sung. Remain relatively motionless during rests, as if uncertain or apprehensive.

Throughout bars 7-11, Norma C stands and addresses her audiences alone. The cycles of gestures and sung fragments (5 gestures for every 3 modules) should appear uncanny and ritualistic. At no point should the singing seem rushed.

There should never be any coordination among the Norme. Their respective modules should interact with each others' in an unpredictable manner, proceeding without regard to barlines.

Throughout bars 19-23, Norma C holds the knife above a doll's body, but hesitates instead of striking.
The doll is a prop that is recognizably humanoid, albeit grotesquely so. It must be fashioned such that a freely resonating cymbal or gong forms part of the torso.

(20) 3.4" N. A. Knife across metal surface <1-2" c. 2.10" Norma A tentatively scrapes knife perpendicularly across the doll's torso (i.e., resonating gong or cymbal surface). Her actions are tentative and exploratory, lasting no more than about 2 seconds each. They are separated by long pauses of unpredictable lengths. The metal surface will shriek, and the sounds should startle and unnerve Norma A in proportion to their intensity.
