CELEBRATING 20 YEARS OF THE JOURNAL

The first volume of the *UCR Undergraduate Research Journal* was published in the Spring of 2007. It featured 6 articles on topics ranging from the role of Christianity in state politics to the challenges of imaging single-layer graphene. Since that first issue, the *Journal* has continued to highlight the research endeavors of UCR undergraduate students from across the disciplines.

To celebrate the 20th volume of the *UCR Undergraduate Research Journal*, we attempted to contact all of the students who published their work in the *Journal* or served on its Student Editorial Board over the last 20 years. When we started this project, we expected only a few people would respond. Instead, we received replies from almost 100 alumni from across the country and even from abroad. They were delighted to hear the *Journal* was still going strong and excited to tell us about the paths their lives have taken post-graduation. Many of them told us about how their experiences with the *Journal* helped shape their academic and professional interests.

The following pages highlight our alumni, from our first issue through our most recent in 2025. Their range of accomplishments are truly impressive and we hope they will inspire the next generation of UCR undergraduate students.

Through the Volumes

UCR UNDERGRADUATE RESEARCH JOURNAL OVER THE YEARS

From the first volume in 2007 to over two hundred articles in print, the UCR Undergraduate Research Journal has spent twenty years elevating student scholarship across every college.

PAUL JACQUES

B.A. Theater · 2007

STUDENT EDITORIAL BOARD

In Brief

Paul graduated in 2007 with a degree in theater after serving as one of the founding student editors of the *UCR Undergraduate Research Journal*. Reflecting on his time with the *Journal*, Paul remembers “enjoying the variety of research coming in from all colleges within UCR.... The experience helped me to see how interdisciplinary thinking was an option for the sort of research that I wanted to pursue.”

ALEXANDER S. CHEUNG

B.S. Bioengineering · 2009

STUDENT EDITORIAL BOARD 2008 · AUTHOR 2009

In Brief

Building on his training at UCR, Alexander has gone on to work on compelling science with talented researchers. He credits the *Journal* with introducing him to the peer review process and teaching him how to communicate complex ideas concisely, skills he still uses today. He offered this advice to our current students: “Approach [peer review] with an open mind and leverage the feedback to improve your work. Find research and a community that inspires and resonates with you.”

MICHELLE (MURPHY) MARISCAL

B.S. Biological Sciences · 2009

AUTHOR

In Brief

Michelle graduated in 2009 with a degree in Biological Sciences. After earning a master's degree in Ecology, she worked with multiple conservation-focused organizations in Southern California. Now, she is an Ecologist at the Puente Hills Habitat Preservation Authority, protecting threatened and endangered species in Southern California. She credits her *Journal* experience with making scholarly publishing “far less intimidating” and giving her “the confidence to pursue future publications.” Since her time at UCR, Michelle has co-authored several scientific papers and textbook chapters.

Santa Monica College

ALEXANDER STERLING

B.A. English · 2012

AUTHOR

In Brief

In his article for the 2012 edition of the *Journal*, Alexander Sterling “analyzed a Malcolm X speech and discussed his argument for a more communal approach to life rather than an individualistic one.” He credits his mentor with connecting him to the *Journal* and mentorship has remained at the core of his personal and professional life. His time at UCR as both an undergraduate and a graduate student was shaped by mentors. Now a professor at Santa Monica College, he works with on-campus organizations such as A2MEND, MOCAN, and Umoja. He also delivers keynotes and runs workshops focused on “helping students uncover their personal capacity and potential.”

Former Mayor of Burbank

NICOLE (NIKKI) PEREZ

B.A. Psychology and Music Performance · 2016
STUDENT EDITORIAL BOARD · AUTHOR

In Brief

Nicole graduated in with a degree in psychology and music performance. She recently completed her term as Mayor of Burbank, making history as the city's youngest mayor and its first pregnant mayor. She credits her Journal experience with preparing her for policy writing and data-driven decision making, noting that the research process "taught me a higher level of organized writing that helped me when grant writing in my future career roles." Her advice to future authors: "Don't be afraid to pursue a topic that interests you—your passion for the research will show itself through your work."

GEOFFREY PRONOVOST

B.S. Biochemistry · 2016

STUDENT EDITORIAL BOARD

In Brief

Following undergrad at UCR, Geoff went straight into his Ph.D. studies at UCLA, working with Dr. Elaine Hsiao in the microbiome space. There, he developed an interest in translatability of foundational science, which grew into a passion for drug discovery and development. He now works in biotech in the San Francisco Bay Area. Reflecting on his time with the *Journal*, he noted that “Working as a student editor gave me the first, real-world experience with critiquing technical studies... Participating in the Undergrad Research Journal provides an early-access to developing this skill, which notably applies to both academic and professional career paths alike.”

JOURNAL ALUMNI CLASSES OF 2019 - 2020

Alumni Spotlight

Martin Lopez

Current Role:
Ph.D. Candidate, Cincinnati
Children's Hospital / University of
Cincinnati College of Medicine

MARTIN LOPEZ

B.S. Biochemistry · 2021

STUDENT EDITORIAL BOARD

In Brief

Martin graduated from UCR in 2021 with a degree in Biochemistry. After earning his master's at UCR and working as a research specialist at UC Irvine and in biotech in San Diego, he is now a third-year Ph.D. candidate at Cincinnati Children's Hospital through the University of Cincinnati College of Medicine. He values the *Journal's* interdisciplinary nature, noting that reading articles outside his field "piqued my interest in areas I've never considered before." His advice: "Be open to every opportunity—you never know where you'll end up."

Career Trajectory

Ph.D. Candidate in Molecular Genetics, Biochemistry, and Microbiology
University of Cincinnati College of Medicine

M.S. in Biochemistry and Molecular Biology
University of California, Riverside

Alumni Spotlight

Camila Reyes

Current Role:
Ph.D. Candidate in English,
University of Southern California

CAMILA REYES

B.A. English and Psychology · 2020
AUTHOR

In Brief

At UCR, Camila double-majored in English and Psychology, worked as an ARC writing tutor, was an Mellon Mays Undergraduate Research Fellow, and published an article analyzing Lady Macbeth in the *UCR Undergraduate Research Journal*. Now a Ph.D. Candidate in English at USC, Camila has continued her work on Early Modern women writers. “Publishing with the Journal has been immensely helpful during my time in grad school.” She learned how to “make my writing and research more understandable for people outside my field [which] has been essential for applying for research fellowships and postdocs.”

JOURNAL ALUMNI CLASS OF 2021

Alumni Spotlight

Alice Jade Lee Koga

Current Role:
Ph.D. Student in Philosophy,
UC San Diego

ALICE JADE LEE KOGA

B.A. Philosophy · 2021
STUDENT EDITORIAL BOARD

In Brief

Alice is a currently a Ph.D. student at UC San Diego using philosophy to better understand attention and agency under the attention economy. As an SEB member, she worked with students from many different backgrounds and disciplines. This experience was crucial for preparing her for academia. “Working for the *Journal* was my first real interdisciplinary experience. Being able to be conversant in other disciplines is something that matters a lot in my own work, as research on the attention economy spans many disciplines such as psychology, sociology, media and culture studies, human-computer interaction.”

Shayan Saeed

Current Role:
Medical Student (MS3),
UC Irvine - School of Medicine

SHAYAN SAEED

B.A. Middle East and Islamic Studies · 2022
STUDENT EDITORIAL BOARD

In Brief

Shayan graduated from UCR in 2022 with a degree in Middle East and Islamic Studies. He is currently a medical student at the UC Irvine - School of Medicine, with research interests in diagnostic imaging for prostate cancer recurrence. He credits his time on the Editorial Board with giving him “greater appreciation for the scientific review process” and teaching him transferable leadership skills. His advice: “Take advantage of the opportunities at UCR—there are many.”

Alumni Spotlight

Ledia Nasr

Current Role:

Medical Scribe,

Advanced Pain Diagnostics & Solutions

LEDIA NASR

B.S. Biochemistry · 2024

STUDENT EDITORIAL BOARD

In Brief

Ledia has been busy since she graduated from UCR in 2024. She has worked as a phlebotomist, a medical assistant at a ketamine treatment clinic, and now is a medical scribe at Advanced Pain Diagnostics & Solutions. Her goal is to one day work as a Physician Assistant who specializes in oncology and surgery. She describes her time as Co-Editor-in-Chief as one of the most rewarding experiences of her career. “The *Journal* strengthened my leadership and communication skills. Without it, I would have never reached where I am today. Reviewing manuscripts required careful analysis and constructive feedback, while leading the editorial team taught me how to collaborate effectively and manage responsibilities under deadlines. These skills continue to serve me well in healthcare.”

Alumni Spotlight

Sreenidhi Surineni

Current Role:
Incoming M.Res. Student,
Imperial College London

SREENIDHI SURINENI

B.S. Neuroscience- 2026
STUDENT EDITORIAL BOARD

In Brief

Sreenidhi graduated from UCR in 2026 with degrees in Neuroscience and Philosophy. He won the Barry Goldwater Scholarship, was a Rhodes Finalist, and was UCR's first Marshall Scholar. At UCR, his research in Dr. Sika Zheng's lab developed ASCAM, an automated pipeline for detecting axonal swellings in 5xFAD Alzheimer's mouse models. Starting in Fall 2026, he will be pursuing an M.Res. in Neurotechnology and an M.Res in Medical Device Design at Imperial College London.
