The first time my toes touched salty water, my hands clasped yours tightly. I felt like I was returning to the place where I was born. The cold, dark waters of the Atlantic brushed up against my shins, sending an electric current through my body and out through my fingers, weaved within yours—much larger.

We are bonded by so much, but our love for these deep blue tides is one that we share with our ancestors. Both of our families come from waters fresh, but the power of water knows no borders. From land to sea, we have touched so many parts of this land. Water connects us—from the lakes to tributaries to oceans—and this connection we feel between each other and our kin.

Back on land, we create from memories we hold from our time out by sea. These creations keep the water in mind, with deep indigo hues, while incorporating elements from the land: antler, quills, fur, cotton, and more. Each piece plays to a specific memory of water and, through that memory, we are reminded of its importance to our ancestors, to us, and to our future kin.

In the following pages, we present the Indigo Dreams Collection, in six movements:

1. shore, 2021, Raechel Bonomo and Chase Wastesicoot—mixed media (antler, indigo dye, glass beads, metal)
2. distance, 2021, Raechel Bonomo and Chase Wastesicoot—mixed media (antler, caribou fur indigo dye, cotton, glass beads, metal)
3. crescendo, 2021, Raechel Bonomo and Chase Wastesicoot—mixed media (antler, acrylic paint, indigo dye, porcupine quills, glass beads, metal)
4. meeting, 2021, Raechel Bonomo and Chase Wastesicoot—mixed media (antler, crystal, glass beads, indigo dye, cotton, metal)
5. depth, 2021, Raechel Bonomo and Chase Wastesicoot—mixed media (antler, leather, cotton, indigo dye, glass beads, metal)
6. currents, 2021, Raechel Bonomo and Chase Wastesicoot—mixed media (antler, leather, cotton, indigo dye, glass beads, metal)

Citation for this article

Parks Stewardship Forum explores innovative thinking and offers enduring perspectives on critical issues of place-based heritage management and stewardship. Interdisciplinary in nature, the journal gathers insights from all fields related to parks, protected/conserved areas, cultural sites, and other place-based forms of conservation. The scope of the journal is international. It is dedicated to the legacy of George Meléndez Wright, a graduate of UC Berkeley and pioneer in conservation of national parks.

Parks Stewardship Forum is published online at https://escholarship.org/uc/psf through eScholarship, an open-access publishing platform subsidized by the University of California and managed by the California Digital Library. Open-access publishing serves the missions of the IPPB and GWS to share, freely and broadly, research and knowledge produced by and for those who manage parks, protected areas, and cultural sites throughout the world. A version of Parks Stewardship Forum designed for online reading is also available at https://parks.berkeley.edu/psf. For information about publishing in PSF, write to psf@georgewright.org.
