The author would like to update the competing interest statement, which in the original published article stated “B.M.R.S. has received a research grant, administered by his academic institution, from appliedVR (Los Angeles, California)”, to include additional information. The competing interest statement has been changed to “B.M.R.S. received a research grant, administered by his academic institution, and also received \$1250 in 2014 for a one-time activity that was unrelated to the published research, both from appliedVR (Los Angeles, California).” This has been corrected in the HTML and PDF version of the Article.
