In the original version of this article (1), the reported CD8⁺ T-cell quantifications in Fig. 4 were incorrect due to an error in data extraction. The CD8⁺ T-cell quantifications have been corrected throughout the article text and figure. In addition, the related statistical tests in Fig. 4A and 4C have been corrected accordingly. The latest HTML and PDF versions both reflect these corrections, which do not affect the main conclusions of this study. The authors regret this error.
