ETHICAL AND LEGAL
1  Effect of a Regional Dedicated Psychiatric Emergency Service on Boarding and Hospitalization of Psychiatric Patients in Emergency Departments
   S Zeller, N Calma, A Stone
7  The Alameda Model: An Effort Worth Emulating
   A Moulin, K Jones
9  Response to Moulin and Jones: “The Alameda Model: An Effort Worth Emulating”
   S Zeller
11 Increasing Suicide Rates Among Middle-age Persons and Interventions to Manage Patients with Psychiatric Complaints
   B Chakravarthy, E Frumin, S Lotfipour
14 Patient Attitudes Regarding Consent for Emergency Department Computed Tomographies
   MB Weigner, HF Basham, KM Dewar, VA Rupp, I. Cornelius, MR Greenburg
20 Prognosis for Emergency Physicians with Substance Abuse Recovery: 5-year Outcome Study
   J Rose, M Campbell, G Skipper

TECHNOLOGY IN EMERGENCY CARE
26 Social Media Guidelines and Best Practices: Recommendations from the Council of Residency Directors Social Media Taskforce
   MT Pillow, L Hopson, M Bord, D Cabrera, L Patterson, D Pearson, H Sule, F Ankel, M Fernandez-Frackelton, RV Hall, JA Kegg, D Norris, K Takenaka
31 Betrayed Mood in Public View: Taking a MySpace History
   VL Dissanayake, J Nasr
35 Patient Impression and Satisfaction of a Self-administered, Automated Medical History Taking Device in the Emergency Department
   S Arora, AD Goldberg, M Menchine
### JOURNAL FOCUS

Emergency medicine is a specialty which closely reflects societal challenges and consequences of public policy decisions. The emergency department specifically deals with social injustice, health and economic disparities, violence, substance abuse, and disaster preparedness and response. This journal focuses on how emergency care affects the health of the community and population, and conversely, how these societal challenges affect the composition of the patient population who seek care in the emergency department. The development of better systems to provide emergency care, including technology solutions, is critical to enhancing population health.

### Table of Contents

*continued*

#### EDUCATION

41  **Impact of Learners on Emergency Medicine Attending Physician Productivity**  
*R Bhat, J Dublin, K Maloy*

45  **Correlation of the Emergency Medicine Resident In-training Examination with the American Osteopathic Board of Emergency Medicine Part 1**  
*D Levy, R Dvorkin, A Schwartz, S Zimmerman, F Li*

#### TREATMENT PROTOCOL ASSESSMENT

51  **Meta-analysis of Protocolized Goal-directed Hemodynamic Optimization for Severe Sepsis and Septic Shock in the Emergency Department**  
*CR Wira, K Dodge, J Sather, J Dziura*

60  **Shock Index as a Predictor of Vasopressor Use in Emergency Department Patients with Severe Sepsis**  
*CR Wira, MW Francis, S Bhat, R Ehrman, D Conner, M Siegel*

67  **Predictors of Unattempted Central Venous Catheterization in Septic Patients Eligible for Early Goal-directed Therapy**  
*DR Vinson, DW Balklard, MD Stevenson, DG Mark, ME Reed, AS Rauchwerger, UK Chettipally, SR Offerman*

#### Online Only Manuscripts

*(Full text manuscripts available open access at http://escholarship.org/uc/uciem_westjem)*

#### EMERGENCY DEPARTMENT OPERATIONS

76  **Comparison of Procedural Sedation for Reduction of Dislocated Total Hip Arthroplasty**  
*JE dela Cruz, DN Sullivan, E Varboncouer, JC Milbrandt, M Duong, S Burdette, D O'Keefe, SL Scaife, KJ Saleh*

81  **Importance of Hospital entry: Walk-in STEMI and Primary Percutaneous Coronary Intervention**  
*E Bansal, R Dhawan, B Wagman, G Low, L Zheng, L Chan, K Newton, SP Swadron, N Testa, DM Shavelle*
