**Tabulations from a Statewide Survey
of California Registered Voters
about the Death Penalty
and Governor Gavin Newsom**

by the
Berkeley IGS Poll
Institute of Governmental Studies
University of California, Berkeley

Early June 2019

Introduction

The statistical tabulations in this volume are based on a *Berkeley IGS Poll* completed by the Institute of Governmental Studies (IGS) at the University of California, Berkeley. The poll was completed online among 4,435 California registered voters in English and Spanish June 4-10, 2019.

The survey was administered by distributing email invitations to stratified random samples of the state's registered voters. Once the questionnaire and email invitations had been finalized, they were translated into the Spanish and reviewed for cultural appropriateness. They were then programmed onto Qualtrics, a survey platform frequently used by the University of California, Berkeley when distributing emails as part of an opinion research study. Each email invited voters to participate in a non-partisan survey conducted by IGS. Voters were provided a link to the IGS website where the survey was housed. Reminder emails were distributed to non-responding voters over a seven-day period. An opt out link was provided at the bottom of each invitation for voters not wishing to participate or not wanting to receive future emails from IGS about the survey.

Samples of registered voters with email addresses were provided to IGS by Political Data, Inc., a leading supplier of registered voter lists in California. The email listings were derived from information included on the state's official voter registration rolls. The statewide sample of registered voters was stratified in an attempt to obtain a proper balance of survey respondents across major segments of the registered voter population by age, gender and race/ethnicity.

To protect the anonymity of survey respondents, voters' email addresses and all other personally identifiable information were purged from the data file and replaced with a unique and anonymous identification number in data processing. At the conclusion of data processing, post-stratification weights were applied to align the sample to the population characteristics of the state's overall registered voter population.

The sampling error associated with the results from the survey are difficult to calculate precisely due to the effects of sample stratification and the post-stratification weighting. Nevertheless, it is likely that the results from the overall registered voter sample are subject to a sampling error of approximately +/- 2.5 percentage points at the 95% confidence level. Results based on subgroups of this population would be subject to larger margins of sampling error.

Survey Questions

Do you approve or disapprove of the way Gavin Newsom is handling his job as Governor of California?

As you know, California has capital punishment – that is, execution – as a form of punishment for certain crimes. How do you personally feel about capital punishment? Would you be in favor of doing away with the death penalty, or do you feel that the death penalty should be kept as a punishment for serious crimes?

Earlier this year, Governor Gavin Newsom imposed a moratorium on all executions in the state while he is in office, which would spare the lives of the over 700 inmates currently on death row. Do you support or oppose the Governor in taking this action?

The legislature is considering placing a constitutional amendment on the 2020 statewide election ballot to abolish the death penalty in California and replace it with life in prison without the possibility of parole. If you were voting on a constitutional amendment like this and the election were being held today, how would you vote

About the Institute of Governmental Studies

The Institute of Governmental Studies (IGS) is an interdisciplinary organized research unit that pursues a vigorous program of research, education, publication and public service. A component of the University of California (UC) system's flagship Berkeley campus, it is the oldest organized research unit in the UC system and the oldest public policy research center in the state. The director of the Institute of Governmental Studies is Lisa Garcia Bedolla.

IGS conducts periodic surveys of public opinion in California on matters of politics and public policy through its *Berkeley IGS Poll*. The poll, which is disseminated widely, seeks to provide a broad measure of contemporary public opinion, and to generate data for subsequent scholarly analysis. The director of the *Berkeley IGS Poll* is Mark DiCamillo. For a complete listing of stories issued by the *Berkeley IGS Poll* go to <https://igs.berkeley.edu/igs-poll/berkeley-igs-poll>.
